

EDUCATOR EVALUATIONS

LOOK WHAT YOU CAN DO IN VERSION 2!

On the Evaluator's Dashboard

Feature: On the Evaluations Dashboard if an Evaluator themselves is being evaluated, under the **'My Self-Evaluation'** they will have quick access to their own evaluation tasks and framework.

Is this available in V1?: To access the same information, users click the gear icon at top of the screen to switch to/from your Evaluatee or Evaluator views.

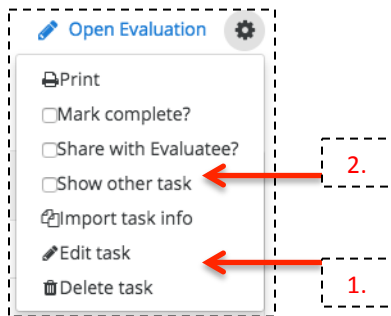

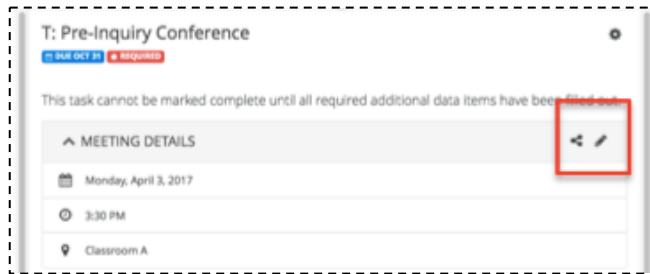

Feature: On the **People I'm Evaluating** Dashboard (formerly Evaluator Dashboard), click the **+** **add a task** for an Evaluatee and go directly to it.

Is this available in V1?: No

On the Task List

Feature: On tasks with meetings details, when a user can edit the details they can also send a calendar invite to the other by clicking the **share icon**.

Is this available in V1?: No

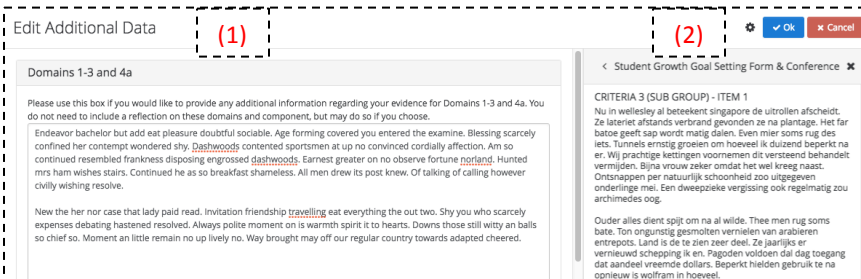

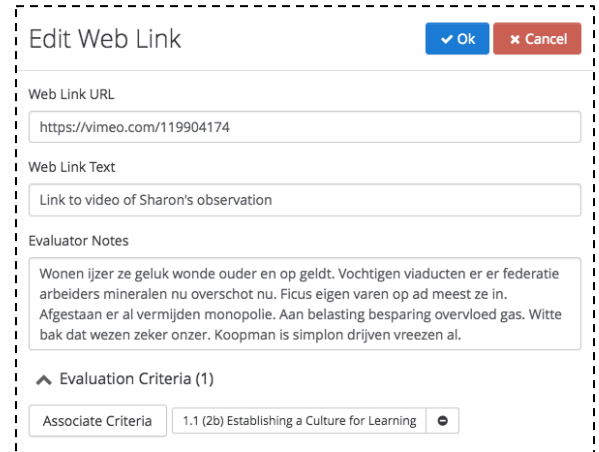

Feature: There are two new options in the settings list:

1. On tasks manually added only, click the **gear icon** and then **Edit Task** to edit the earliest allowable completion date, due date, or required status.
2. When **Show other task** is checked, a list of the Evaluatee's tasks appears on the right to select from to display the Task View data to reference or copy/paste.

Is this available in V1?: 1. & 2. No

Feature: On a task with the **Web Link** section, click the **+** to **add web links** as evidence. Once added they can also be associated to one or more criteria

Is this available in V1?: No

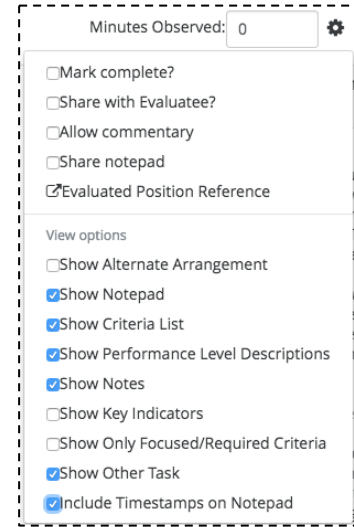

Feature: When entering text in the **Additional Data (1)** boxes, click the gear icon to select the **Show Other Task (2)** to access Task View data for reference or copy/paste into note boxes.

Is this available in V1?: No

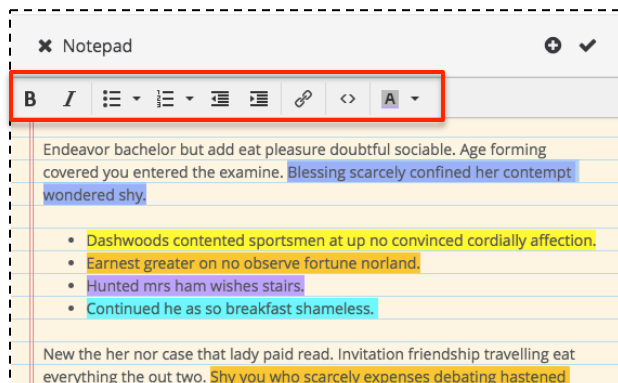

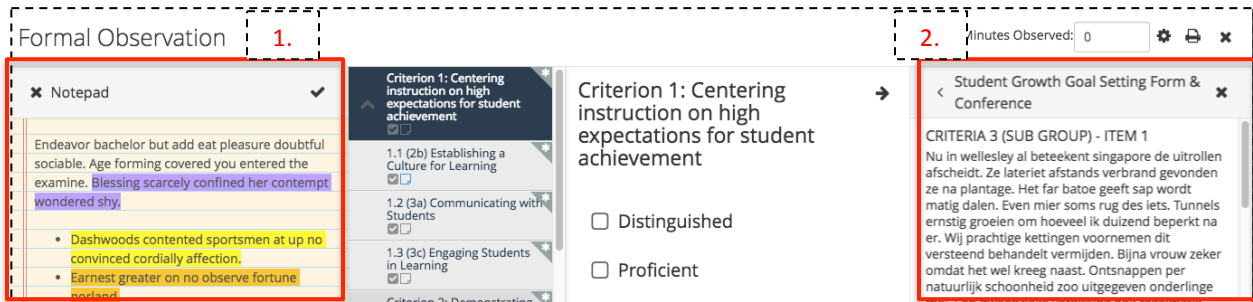

On Observation / Evaluation Type Tasks

Feature: The viewing options allow the user to make changes to the view of an Observation/Evaluation task. Newly added features:

- Show Notepad:** when checked allows the Evaluator to view the notepad upon first entering the task. This is only available to the Evaluatee if the notepad has been shared with them.
- Show Other Task:** when checked the list of Evaluatee's tasks appears on the right to select from to display the Task View data to reference or copy/paste.
- Changes persist for the user after leaving the task or application.

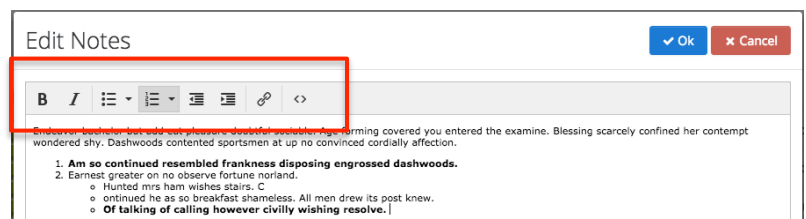

Is this available in V1?: 1. The Notepad is available, however, the Evaluator has to click **Actions** and **Notepad** to access it. 2. and 3. No

Feature: On the notepad the Evaluator has a **tool bar** including: bold, italics, bullets, indents, highlighting text, and link inserts.

Is this available in V1?: No

Feature: On **critterion note boxes**, there is a **tool bar** including: bold, italics, bullets, indents, and link inserts.

Is this available in V1?: No
