

## HOMEROOM DASHBOARDS - RISK INDICATOR VIEWER

The School Data Risk Indicator Viewer makes it easy for users to view where students appear on the threshold of student risk. Risk indicators display both a Risk Value and a Risk Level.

A **Risk Value** is a numerical value calculated based on the indicator index's configuration. They are typically color-coded **green/yellow/red**, corresponding to **low/medium/high risk**.

The **Risk Level** is a set label based on the Risk Value and the thresholds established in the configuration. It has the same meaning as the colors displayed in the Risk Value but shows a label instead of the raw value.

A student might be in the medium risk level, but what value is their risk? (med/high or med/low) The Risk Value can help an administrator find students close to slipping to another level so that appropriate action may be taken.

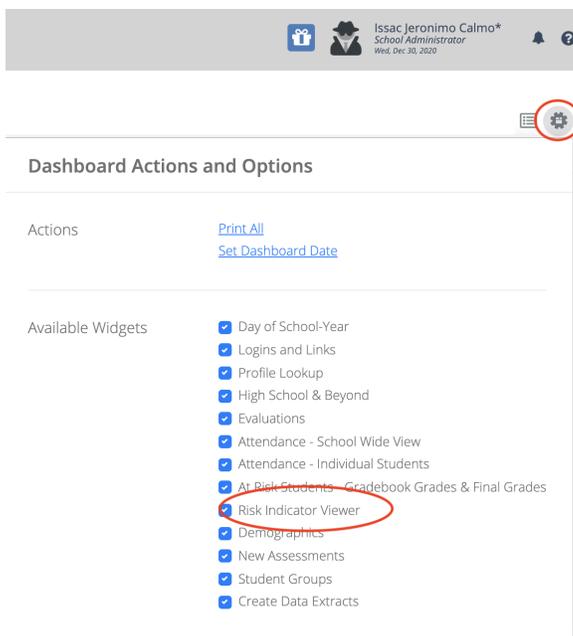

## GETTING THERE

A user will access Homeroom Dashboards by logging into [http://yourdistrict.schooldata.net](http://yourdistrict schooldata.net) and navigating to the Homeroom Dashboard. Help to log in and basic navigation information may be found here:

[HD - Login, Activate, Reset Password Logout](#)

[Homeroom Dashboards - Basic Dashboard Navigation](#)

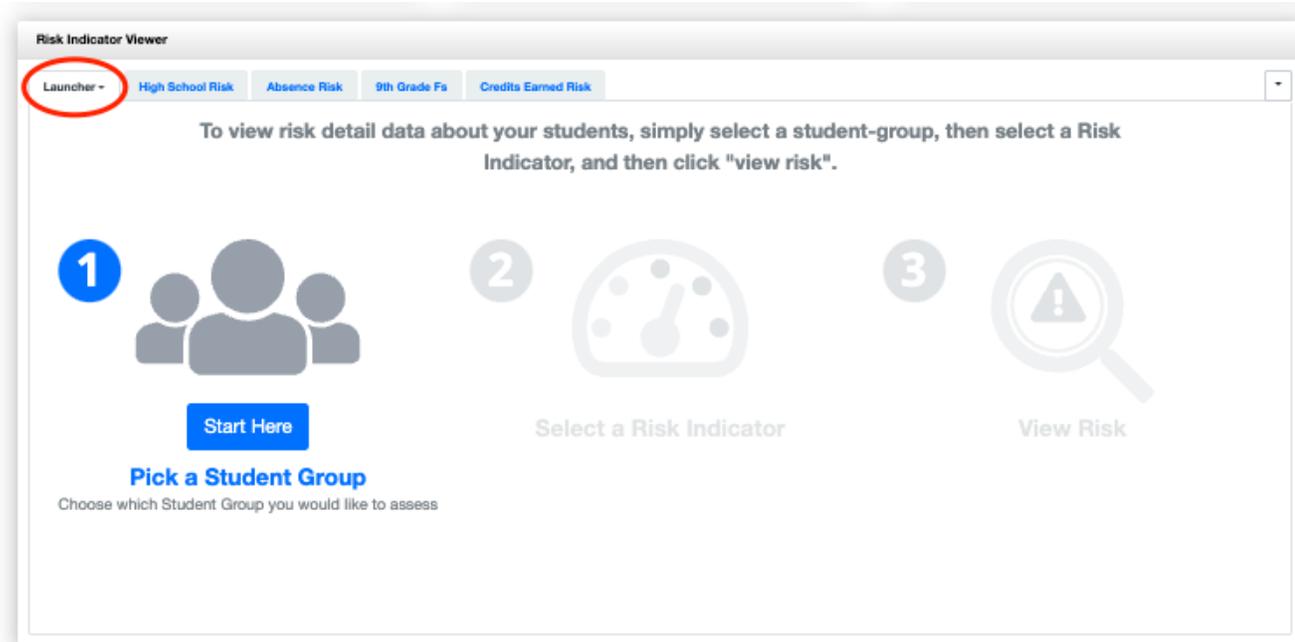

To view the **Risk Indicator Viewer**, you can use the Action Gear icon in the top right of your screen (just below your account information) to access any of the containers quickly, or you can scroll down until you reach the Risk Indicators Viewer.

## USING THE RISK INDICATOR:

You can change how the data is presented by using the tabs across the top of the Risk Indicator Viewer. Your view will depend on if/how your district has customized its viewer. In addition, risk indicators will only deliver interfaces, functionality, and data corresponding to your role

From the Risk Indicator **Launcher** tab, [Pick a Student Group](#)

The selector will default to the current year; select a school year if you want a historical one. Next, select the student group you wish to view and click [Add Student Group](#).

2 Risk Indicator:  
**\*MIHS (HS-Spring 2020)**  
[Change](#)

3 **View Risk**

A student's risk value is calculated based on their risk compared to the total possible risk per term/grade.

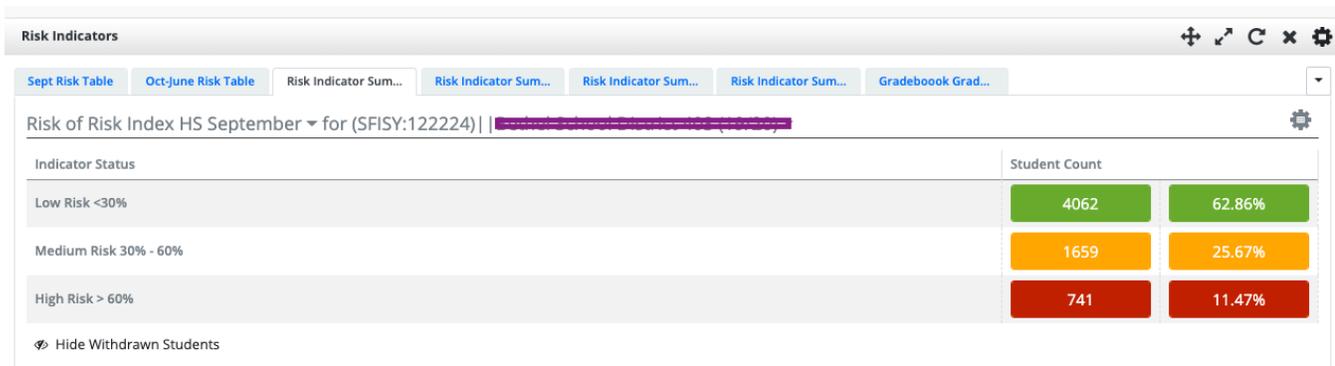

Click on the student's name to Spotlight, a particular Student.

Hover the cursor over the indicator's title for the indicator's description tool text.

Click into a cell to expand the details of the indicator.

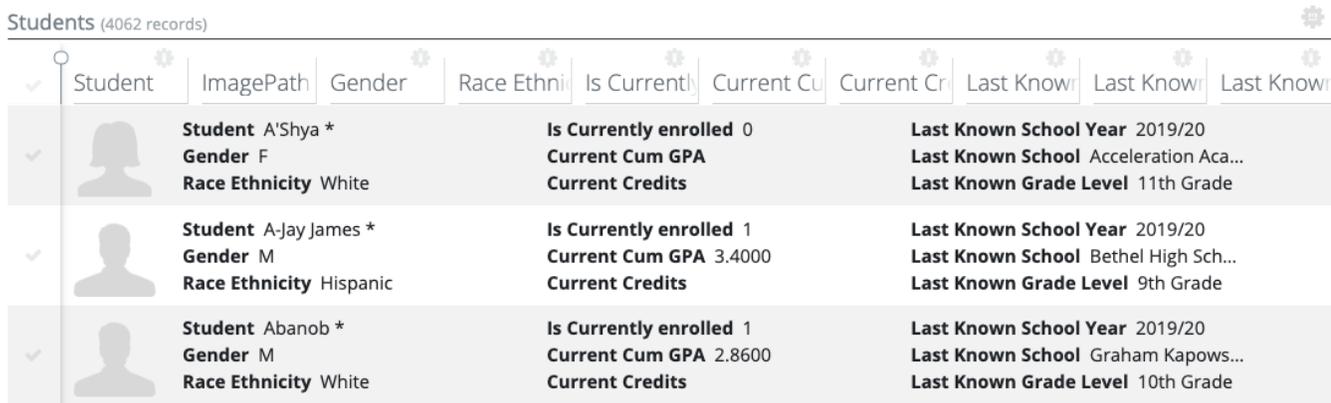

## RISK INDICATOR SUMMARY

One of the SDS default views is the **Risk Indicator Summary**. To view the titles of the tab, hover over the tab, and the full title will display.

In this view, you can click on the number of students or percentages to see the list of students who make up that group.

### Student List

The screenshot shows the 'Students (4062 records)' view. It features a table with columns for 'Student', 'ImagePath', 'Gender', 'Race Ethnicity', 'Is Currently', 'Current Cum GPA', 'Current Credits', 'Last Known School Year', 'Last Known School', and 'Last Known Grade Level'. Three student records are visible:

Student	ImagePath	Gender	Race Ethnicity	Is Currently	Current Cum GPA	Current Credits	Last Known School Year	Last Known School	Last Known Grade Level
Student A'Shya *		F	White	Is Currently enrolled 0			2019/20	Acceleration Aca...	11th Grade
Student A-Jay James *		M	Hispanic	Is Currently enrolled 1	3.4000		2019/20	Bethel High Sch...	9th Grade
Student Abanob *		M	White	Is Currently enrolled 1	2.8600		2019/20	Graham Kapows...	10th Grade

Use the **Action Gear**  to bring up different display options. For example, click **Risk Detail View** to see the data behind the summary numbers. All indicators are visible.

Q			10	Shorewood High School	0.64	High Risk	80.23	5.94

The magnifying glass  next to a student's name will allow you to launch an individual student profile.

A student's **Risk Value** is calculated based on their risk compared to the total possible risk per Term/Grade. For example, a student with 100% risk is high risk in every applicable indicator in the index. Hover the cursor over the indicator's title for the indicator's **Description Tool Test**.

**Risk**

Risk Value	Risk Level
0.82	High Risk
0.73	High Risk
0.73	High Risk
0.73	High Risk

Click into a cell to expand the details of the indicator.

If additional details are available, a table will display and give you more individual information. For example, when looking at the current F's, the table will show which classes those grades are in.
