

ALE Application: Copying in Progress Courses from one School Year to the Next

At the close of one school year, not all coursework associated with subject/course records on a Student Learning Plan may be completed, so the Course Participation Status remains “In Progress.”

For any courses with this status, that subject/course record and some of the associated information can be copied over to the Student Learning Plan for the upcoming school year - either on a student-by-student basis, or as a mass copy of all existing records.

These actions can be taken on the Registrar role under “Manage,” then “Roll over SLP Courses” in the left navigation menu.

1 - 50 of 411 Page 1 of 9 50 per page

Note: Be sure that you want to take this action before clicking as it CANNOT be undone.

A few things to note:

- If a Student Learning Plan does not yet exist for the Student for whom you are copying a Subject/Course in the upcoming school year, one will be automatically generated for that student upon taking this action. The certificated teacher will be copied from the previous year, while the start and end dates of both the plan and the course in progress will default to the term dates set in the system.
- If a Student Learning Plan does exist for the student in question for the upcoming year, courses will be added to the plan.
- If the existing Student Learning Plan already has the courses in question added, they will not be duplicated.
