ALE Release Notes : May 21, 2021

New Features

1. Data Admin ability to set school year start/end dates (to determine SLP start/end dates) different than class term dates
2. New text field on Subject/Course Record Details that gives Cert Teacher ability to title Course on per student basis
3. Surface SLP approval Status and most recent approval date at top right of all tabs on SLP - Cert Teacher can approve SLP using that button
4. Library Updates:
   a. Add Due Date autofill setting
   b. Checkout summary with details on each item
5. Learning plan selector that gives users the ability to quickly switch between learning plans on caseload (or all learning plans)
6. Subdomain switcher - switch to a different logged in subdomain by clicking on the logo
7. Basic Event Schedule Function for Registrar
8. Filterable view of all scheduled classes for Registrar

Configurations/Updates

1. Remove automatic Quick Filter
2. Reconfigure details tab of SLP with new section titled "Parent Enrollment Limits" and add Learning Credit Limit
3. Add additional columns to Student Selector (used when creating a Student Learning Plan or sending SMS Text Message)
   a. Enrollment Year
   b. Has current SLP
   c. Certificated Teacher
4. Add Data Admin setting to enable display of planner view student schedule in 30 minute increments
5. Add "Grades" tab to classes for Cert Teacher role, extending ability to record grades/credits earned per class
6. No longer allow deletion of SLP if weekly contact, class attendance or monthly progress records exist
7. Enrollment method 2 Updates:
   a. Course Field to required when creating a class
   b. Marking subject/course record as withdrawn will remove class enrollment
   c. Monthly Progress by Class: Allow "Set" button to be returned to null
8. Add new columns to Monitor Monthly Progress view (hidden by default) that indicates when all subject/course records have been assigned a yes/no progress designation
9. Add logic so that "Update wSLP subject/courses" procedure uses ALE Course Associations
10. Library: Add ability to "Clone" titles and title copies
11. Add a new text "Reason" field to "Excluded Dates" form for Data Admin

12. Email List: Add count in set when group of emails generated
13. Updated "Guide to offering ALE link" on left nav menu
14. Mass Apply of Classes from SIS to SLP Proc to use start/end dates from SIS
15. Display course name when viewing Data Table: History of Course Progress
16. Waitlist improvements
    a. Add week and meeting time data Points to waitlisted classes table
    b. Add row action gear for parent to allow "remove from waitlist"
    c. Add "Waitlist" table to Student Learning Plan for Cert Teacher, Registrar, Program Manager, Support Staff
17. Move "Manage Attendance from SIS" Page from Certificated Teacher to Data Admin Role

Bug Fixes
1. Update to prevent multiple classes from tied to one subject record for Enrollment Method 2 districts
2. Reinstate "delete wSLP" in Registrar Role
3. Enable students tab to display enrolled Students for 2021/22 classes
4. Update "All Classes" table to display enrolled and waitlisted counts for 2021/22 classes
5. Display student schedule in the Schedule Tab of the ALE/Registrar Manage Students Page
6. Allow selecting pre-k student when creating SLP for next school to automatically use future grade level
7. Update Create Course so that average hours per week field does not save when first entered
8. Update logic so that when a student is moved from Enrolled to the Waiting List by Registrar, the subject/course record is updated appropriately
