Surveys

All districts will start with a **Financial Aid Reflection Survey** for 12th graders.

If a district is interested in adding a survey, email support@schooldata.net with the PDF or Word document listing questions and question format to be created.

Question options include:

Assignments/Worksheets

Educators will soon have direct access to the area for additions. However, for right now, a direct link has to be used.

A district can add links to documents for one or more students at a time in this area. Links can be accompanied by comments to provide instructions on how to use them.
