

Graduation Monitor Overview

In one place, see if students are on track to graduate or are at risk because of a missed credit, low test score, or incomplete high school and beyond plan.

There are two methods of viewing this data, **Venn Diagram** and **All Students**.

Venn Diagram Launcher

The first uses the “**Venn Diagram Launcher**,” which allows an educator to view students who are not on track regarding different credits (total credits, assessments, and non-credits).

The user will want to ensure they are in the “**Educator**” role, then select “**Venn Diagram Launcher**.”

Here the user will see a list of High school and Graduation Years for each High school.

Graduation Trackers Data Table (16 records) Ordered	
School	Graduation Year
West Valley High School	2018
West Valley High School	2019
West Valley High School	2020

- View Summary
- View Details

A Venn Diagram will appear showing students who meet the criteria for not being on track based on: credits, assessments, non-credits, or any combination of those items. The user can click on the region to view the students who fall into those regions.

A pop-up with those students' information will appear, allowing the user to use this information to move forward in helping them get back on track.

All Students

The “All Students” allows educators to view students not on track based on credits in a Data Table. Ensure you are in the Educator role and then navigate to “All Students.”

The user will then be asked to add the **Graduation year** of the students they would like to view. Users can select a school and/or student group if they want to filter the list of students.

After clicking **Search**, a data table with all students that match the search criteria will appear (in this case, all students graduating in 2023).

We can see three different colored **stars** demonstrating a student's credit progress. The “**At Risk**” star in **orange** indicates that the student has neither completed nor planned their courses in that subject area (i.e., total credits).

The “**On Track**” star, a **light green** outline, demonstrates that the student is either scheduled or has planned for those credits in that subject area (i.e., their Total Math credits).

Lastly, the “**Completed**” star, in **dark green**, demonstrates that the student has completed their credits for that subject area (i.e., their Math 1 credit).

A user may click on any of the **stars** to gather more information regarding what exactly the student has accomplished in each subject area credit-wise.

For example, below, a pop-up regarding a student's Total Math Credit appears, giving more details into what the student has completed, scheduled, and/or planned to take to fulfill their Math credit.
