

## Students (Teacher View)

### Quick Links

<a href="#">Details Tab</a>	<a href="#">Standards Tab</a>	<a href="#">Report Card Tab</a>
<a href="#">Assignments Tab</a>	<a href="#">Grades Tab</a>	<a href="#">Activate/Deactivate/Reset Password or Unlock Accounts</a>

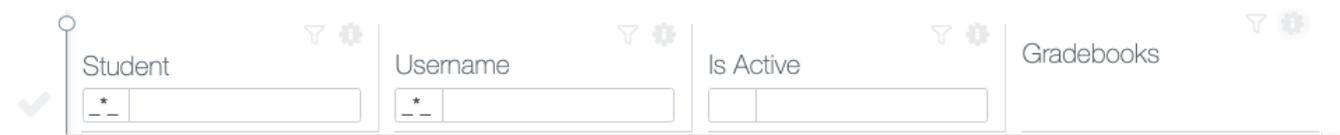

The Students section of Classroom provides demographic and assignment information on single students attached to one or more of your gradebooks. It also includes information on how the student performs on any standards attached to your gradebooks and provides the student's report card.

Select Students from the Classroom left navigation screen to access a single student's record.

For the Students section to be populated with names, you must first create at least one gradebook, and from the gradebook settings, attach at least one student group. For detailed instructions, read the article [Creating a Gradebook](#).

You are presented with a list of all the students you have attached to any gradebook. You can search for the student by name using the Search box or filters to narrow the list.

When you have located the student, select their name, which is a link to their information.

## Details Tab (back to [Quick Links](#))

The student's details provided are taken from your student information system and Homeroom. They include demographic, family, and other information, like credits and a dropout warning.

## Assignments Tab (back to [Quick Links](#))

A teacher with access to the student can see all the student's assignments with any other teacher. You can filter **Past**, **Current**, or **Future** assignments by selecting any button. Further, you can see the student's assignments based on their submitted status, Missing or On-Time.

## Standards Tab (back to [Quick Links](#))

Selecting the standards tab will give you a list of learning targets as outlined by your district. Additionally, you can see all of the individual standards you have attached to assignments the student has taken.

First, select a gradebook using the --choose gradebook-- dropdown.

## Report Card Tab (back to [Quick Links](#))

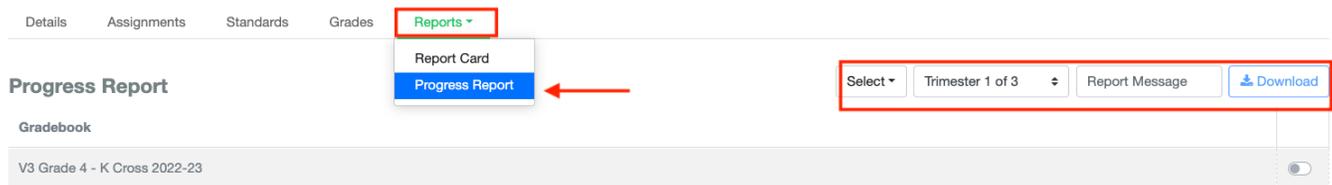

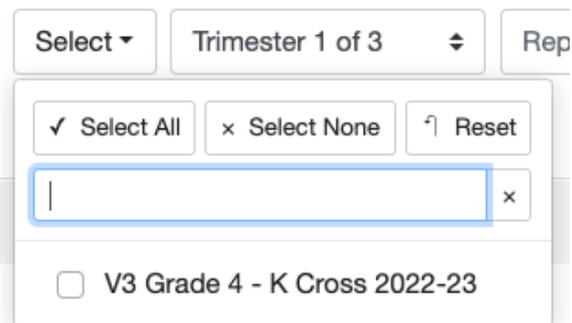

Select any of the reporting options from **Report Cards**.

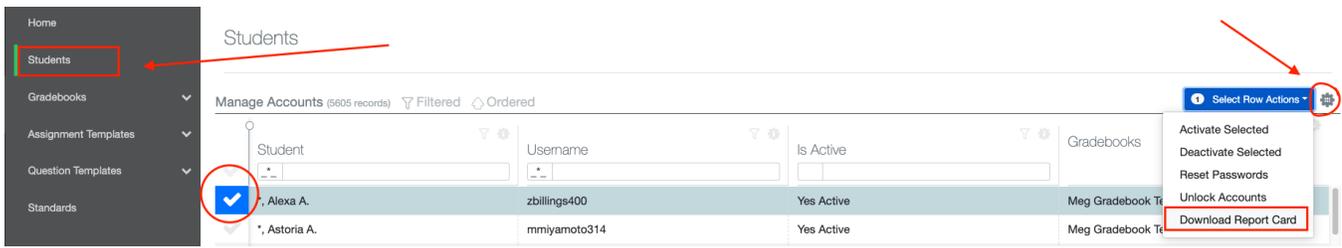

Select the **Row Actions and Options** gear to **Print the Report**.

Select **Report > Progress Report**, then use **Select to Filter** to the gradebook of your choice, choose the grading period, add a **Report Message**, and **Download** the report card.

You may also download the report card(s) by going to **Student** in the left navigation, clicking the **checkmark** to the left of the name, and **Select Row Actions >>Download Report Card**. You can select multiple students or all by clicking the top checkmark NOTE: Try narrowing (filtering) your list to a single gradebook or student group.

## Activate/Deactivate/Reset Password or Unlock Accounts (back to [Quick Links](#))

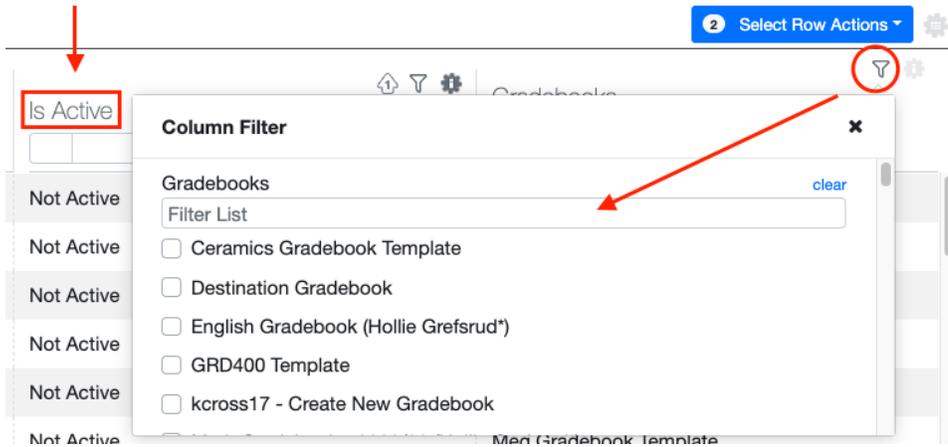

Click the **Student** in the left navigation.

**Cr** Classroom

- Home
- Students**
- Gradebooks
- Assignment Templates
- Question Templates
- Standards

To **Activate** or **Deactive**, filter by **Gradebooks** and **Is Active**.

Select the **checkmark** to the left of the name, and **Select Row Actions** to **Activate Selected** or **Deactivate Selected**. NOTE: You can select multiple students or all by clicking the top checkmark.

Search by any part of the student's name and select the **checkmark** to the left of the name, then **Select Row Actions** to **Reset the Password** or **Unlock Accounts**. You can select multiple students or all by clicking the top checkmark NOTE: Try narrowing (filtering) your list to a single gradebook or student group.

You will provide a password that will be applied as a default password. Notify students. Students should then log in and reset their password to their private selection.

Set new Password Reset to Default Password ✕

---

You can provide a password that will be applied to all selected students. If you leave this password blank, the student(s) will be reset to their default password.
