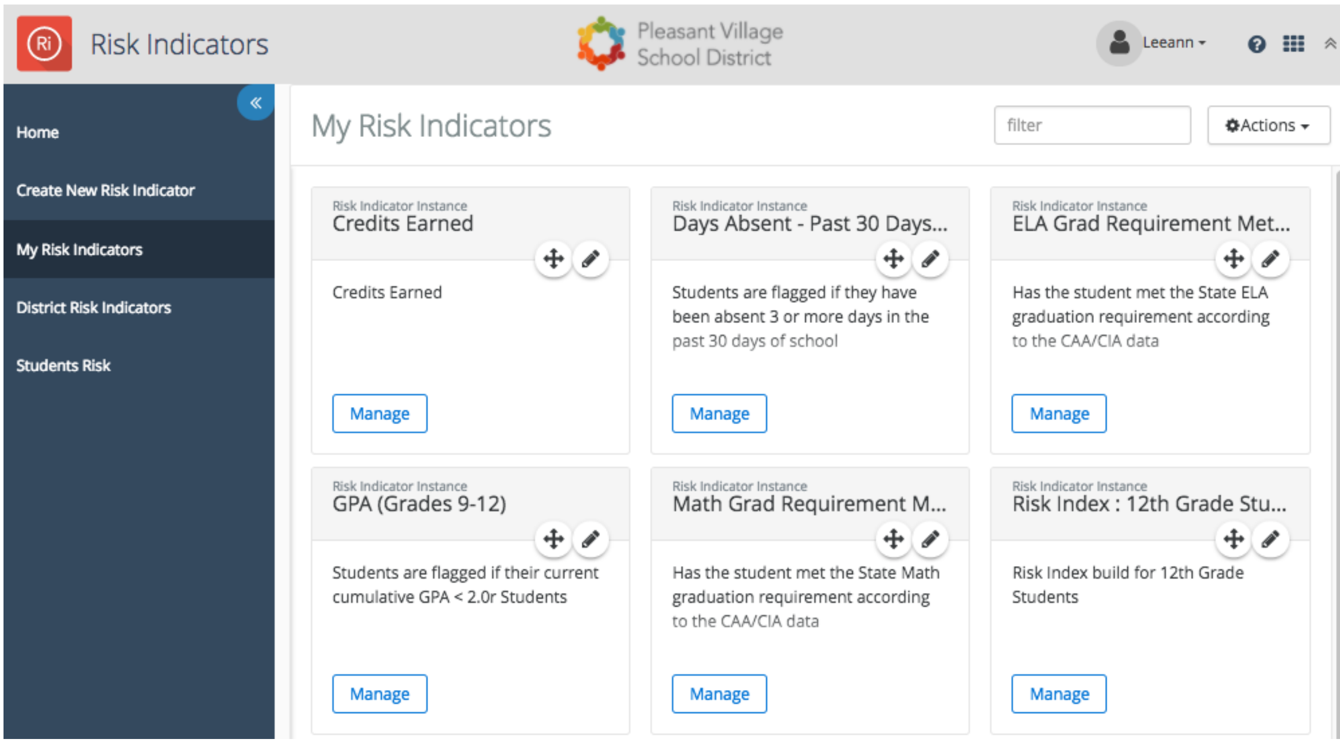
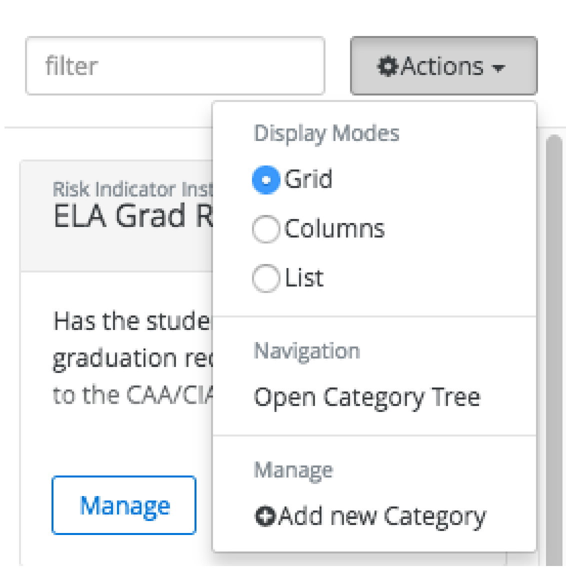
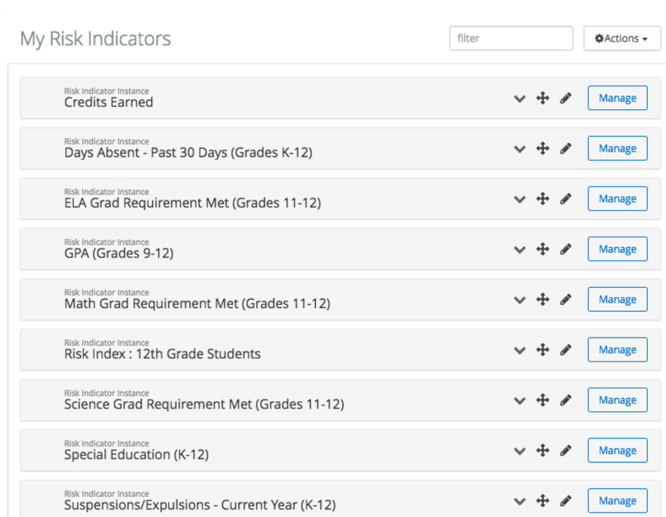
My Risk Indicator.

When a user creates new risk indicator configurations, they will be added to your **My Risk Indicators** page and displayed in grid view by default.

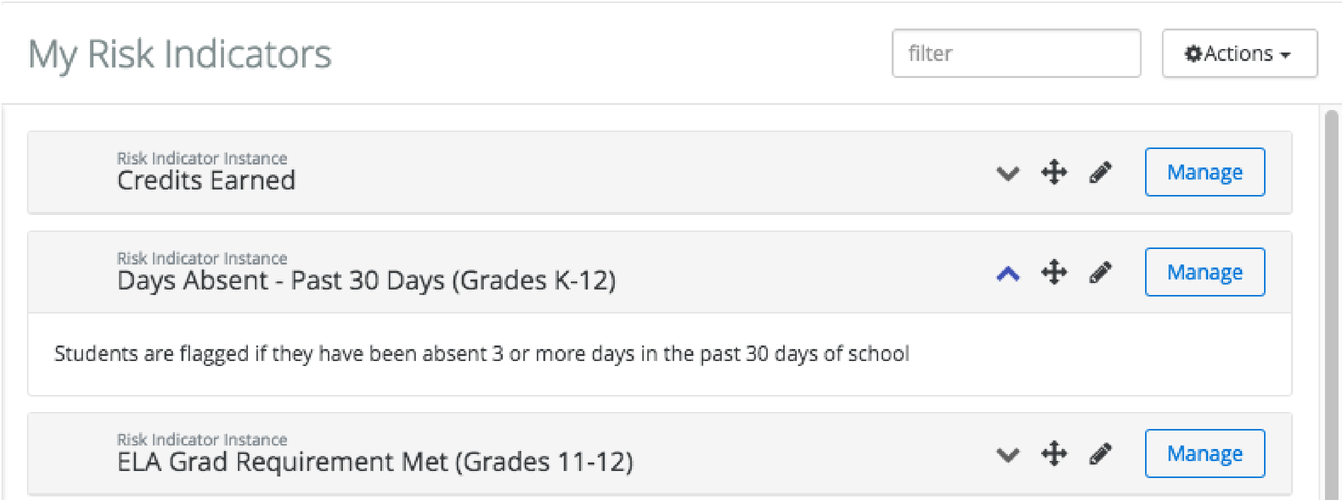


To switch the display mode, click the **Actions gear** button in the upper right-hand corner. You can switch from the default **Grid** to the **Columns** or **List**.

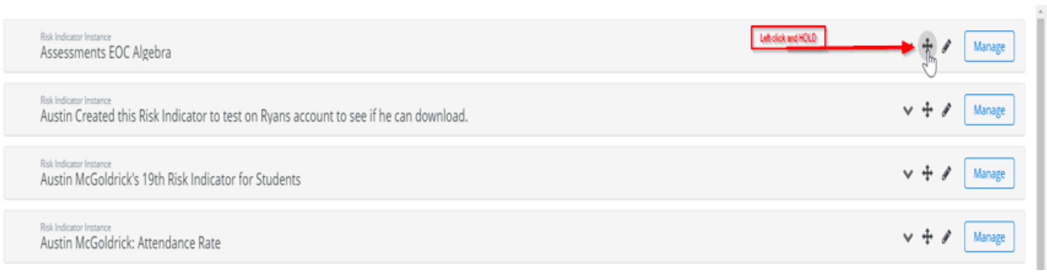


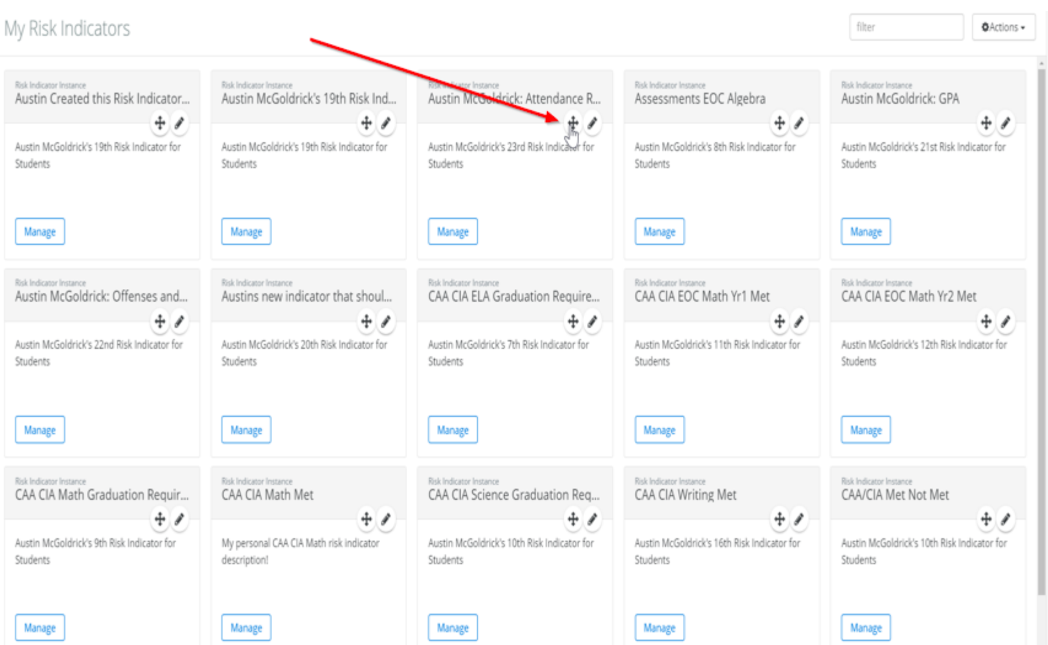


To view the description click the caret icon.

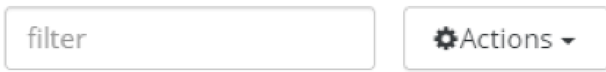


If you want to rearrange the order of your configurations, left-click (and hold) the drag icon, move your configuration to the new position, and then release the click.

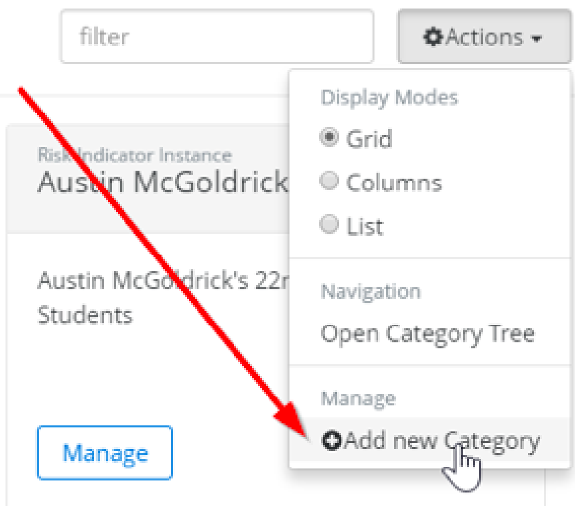




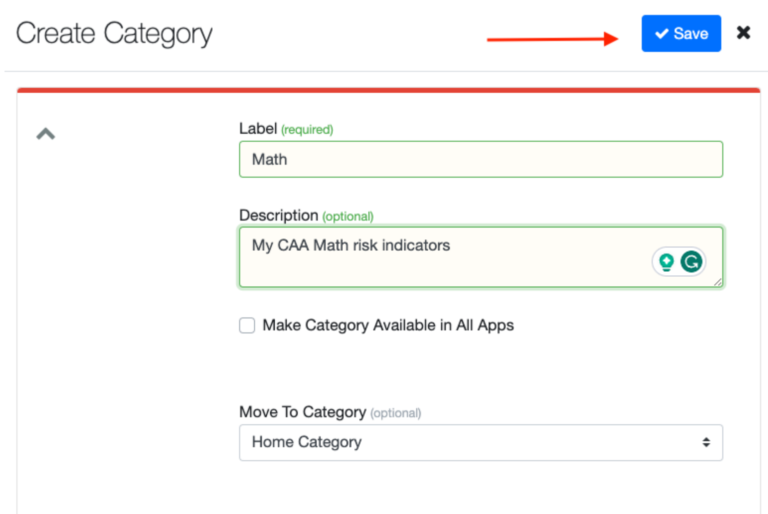
To **filter** your configurations by a keyword, type your search into the textbox next to the "**Actions**" button in the upper right-hand corner.

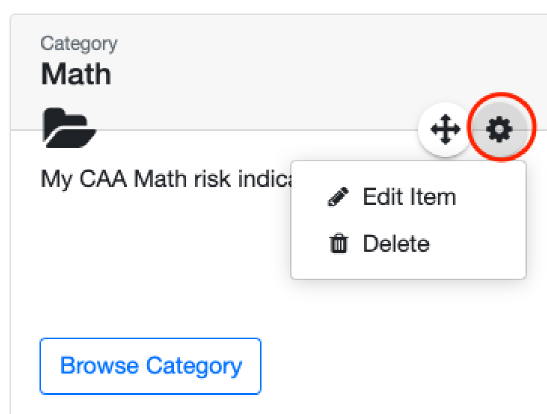


To create a new category, click the **"Actions"** button and select "**Add new Category**" at the bottom of the dropdown menu.

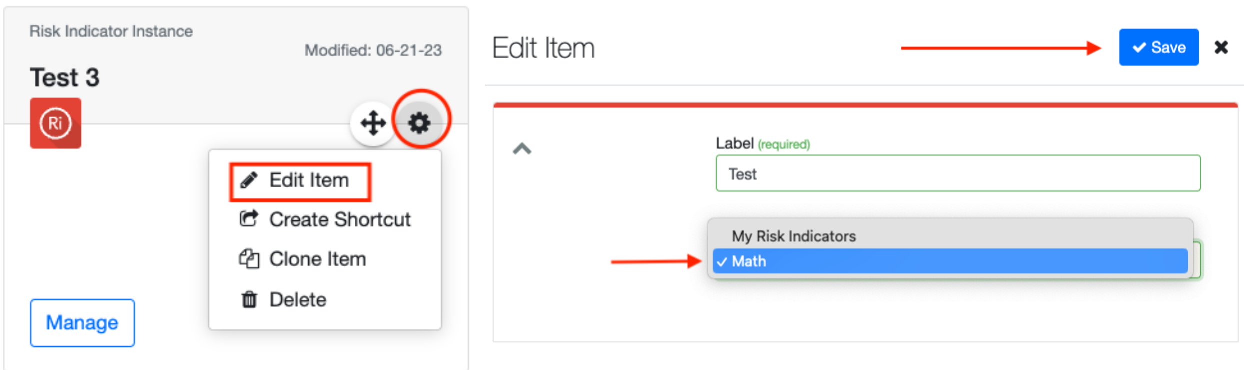


Fill out the information in the modal that pops up and hit the "**Save**" button. You can **Edit** or **Delete** the new Category folder by clicking the **Action** gear.

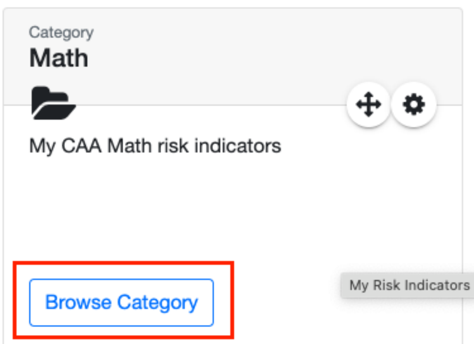




To add a configuration to a category, click on the **Action** gear of a configuration and then select **Edit Item**. A pop-over window will appear. Select "**Move To Category**" and choose your category from the drop-down menu. Then, hit "**Save.**"



To open a category, hit the "**Browse Category**" button.



To view a category tree, click the "**Actions**" button and select the "**Open Category Tree**" option to quickly browse your categories.
