

ALE: Managing ALE Course Code Associations

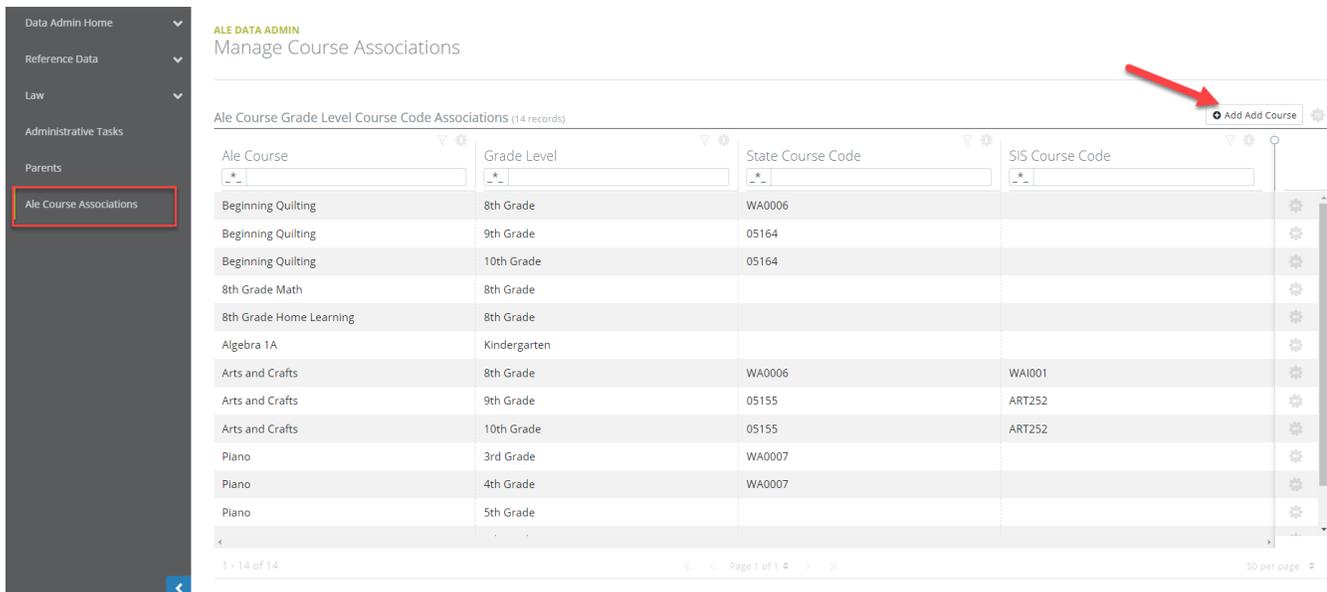

In the ALE Application, if more than one State or SIS course code is assigned to a single course, there is a utility that will allow you to define exactly which course code should be used for which student grade level. For example, if a single Piano course is available for students in grades 4-7 and both the WA0007 and WA0006 course codes are utilized, this utility will let you assign grades 4-5 to the appropriate elementary course code and grades 6-7 to the middle-level code.

This association will determine which course code to utilize for a student when courses are added directly to a student learning plan through the **Add Course** process or when subject/course records are created as a result of enrollment in a class.

This task can be completed in the Data Admin role, and the link is currently only available to districts who have requested it. If this is a feature you will use, please contact us at support@schooldata.net to request we enable the link. ***These associations cannot be retroactively applied to existing Student Learning Plans but, once established, will be utilized for any courses added to plans in the future.

Managing the Associations

Once activated, you will see the link in the left navigation on the **Data Admin** role called **ALE Course Associations**.

Ale Course Grade Level Course Code Associations (14 records)

[Add Add Course](#)

Ale Course	Grade Level	State Course Code	SIS Course Code
Beginning Quilting	8th Grade	WA0006	
Beginning Quilting	9th Grade	05164	
Beginning Quilting	10th Grade	05164	
8th Grade Math	8th Grade		
8th Grade Home Learning	8th Grade		
Algebra 1A	Kindergarten		
Arts and Crafts	8th Grade	WA0006	WA1001
Arts and Crafts	9th Grade	05155	ART252
Arts and Crafts	10th Grade	05155	ART252
Piano	3rd Grade	WA0007	
Piano	4th Grade	WA0007	
Piano	5th Grade		

1 - 14 of 14 | Page 1 of 1 | 50 per page

Courses created since this feature was implemented that are assigned to multiple grade levels will automatically be assigned to this table. Otherwise, click **Add Record** in the top right corner to add a previously created course.

Add Add Course

Validate

Choose an ALE Course to Manage Ale Course (required) Select

One line will be added per grade level, per course added. If a course has grades 4, 5, and 6 associated, it is listed three times in the table. Using the Row Action gear and choosing "Edit" will open a form to make the necessary associations.

Edit

The form will list the course and grade level you are making associations for.

Edit Add Course

Update

Choose State Course Code and SIS Course Code associations for this ALE Course and Grade Level

Ale Course (required) Select

Piano

State Course Code (optional) Select

Grade Level (optional) Select

5th Grade

SIS Course Code (optional) Select

Select a **State Course Code** and a **SIS Course Code** to associate with this course/grade level combo. Your choices will be limited to those State Course Codes and SIS Course Codes that were chosen when the course was created. Only one selection is allowed in each field.

State Course Code ✕

 State Course Code (2 records) ⚙️

State Course Code	
<input type="checkbox"/>	<input type="text" value="*_"/>
<input checked="" type="checkbox"/>	WA0006
<input checked="" type="checkbox"/>	WA0007

In this example, a Piano course that spans grades 3-7 and has both the ELEM (WA0007) and JRHS (WA0006) course codes assigned has been set up to correctly associate the State Course Code based on the grade level of the student:

➕ Add Course ⚙️

Ale Course	Grade Level	State Course Code	SIS Course Code
<input type="text" value="*_ piano"/>	<input type="text" value="*_"/>	<input type="text" value="*_"/>	<input type="text" value="*_"/>
Piano	3rd Grade	WA0007	
Piano	4th Grade	WA0007	
Piano	5th Grade	WA0007	
Piano	6th Grade	WA0006	
Piano	7th Grade	WA0006	

In this example, an Arts and Crafts Course for grades 8-10 has been set up to correctly associate the non-rigor course code for 8th-grade students, while the older students will be assigned the credit-bearing code. Codes from the SIS have also been assigned. SIS Course Codes are not utilized in learning plans or any logic, but this data and the associations established here can be used for creating reports.

The previous logic is still in place if none of the above tools are utilized. If a course is associated with multiple State Course Codes, the first code on the list is typically selected by default, regardless of the student's grade level.
