

## ALE Release Notes : December 5, 2019

### New Features

1. Ability to mass copy classes from one class term to another without student enrollments. (Directions available [here](#) in Help Center)
2. Add "save" and "Save and exit" button on parent reporting for monthly progress page.
3. Ability to remove all class meetings for a selected date range at once. (Directions coming soon to Help Center)
4. Add quick navigation from Student Learning Plan to "Manage Student- Student Profile" screen via gear at the top right with "→Student Profile."

### Configurations/Updates

1. Monitor Monthly Progress page now includes an asterisk next to the cheddar triangle icon (before teacher submits monthly progress) to indicate when parent input has been submitted.
2. Add client side filter on "My Student Learning Plans" for certificated teacher to only include those with "true" in the Owner Column.
3. On Monitor Monthly Progress interface, set "Progress is satisfactory" per course set default to blank rather than no.
4. Add warning for attempted exit without saving on parent reporting for monthly progress page.
5. Add ability to set Monthly progress determination to "null" so that Cert Teacher can save work without making determination.
6. Add student "Schedule" tab to Secretary and Registrar role on Manage Student Page.
7. On "SLP Class Schedule Report" add Grade Level, Semester and Year.
8. Release the number of clicks needed to get to a filter, by auto populating cursor in field upon selecting.
9. Student phone number is auto populated from Student Information System into SMS Text Feature.
10. Surface number of students enrolled per class on "All Classes" Table to monitor class enrollments.
11. Added toggle between "Group By Week" and "All Contact Records" on Weekly Contact tab of Student Learning Plan.
12. Arrange fields on "Weekly Contact" tab of SLP to make view more reader friendly.
13. On Subjects/Courses Tab on SLP, move course status and teacher column to the left so they are visible without scrolling.
14. If student has an active "scanner alert," make visible on Manage Student and Student Learning Plan with a drop down box.
15. Surface yes/no progress designation per course on "simple" view on Monthly Progress

interface for teachers.

16. Add age of student on Student Profile page.
17. Defaults can now be set per program in "Add Weekly Contact" modal.

### **Bug Fixes**

1. "My Class Meetings" not rendering when using iPads.
2. On Class Details page, make all selected grade levels visible.
