ALE Release Notes : March 13, 2020

New Features

1. Added warning at exit of "Manage Instruction" window
2. Added warning at exit of "weekly contact record" window
3. Added "method of weekly contact" to Details page of SLP, included in printed SLP
4. Added "Timeline by Month" option when building course and adding subject/course record to Student Learning Plan
5. Added expedited way to enter weekly contact for multiple students via the "monitor weekly contact" screen
6. Copy "Projected FTE" to "Actual FTE" button added on Monthly Progress interface
7. Add ability to apply mass scanner alerts to all students and by grade level
8. Added SMS Text Student Feature to Secretary and Registrar Roles
9. Added ability to pull course enrollments from SIS and add as subject/course records on SLP
10. Added ability to pull attendance records from SIS and designate by class or school as "fulfilling weekly contact" and will auto generate weekly contact records
11. Added ability for Registrar to lock all parent enrollments for a date range prohibiting parents from adding or removing courses from student schedules
12. Added ability for parent to acknowledge review of Monthly Progress and respond with a comment

Configurations/Updates

1. Added student name to "weekly contact" modal
2. Add filter to "All SLPs" and "My SLPs" to by default, show only those from current school year
3. Surfaced teacher/staff comments alongside parent comments on "All" view for monthly progress
4. Update "Is Active" logic on "All ALE Students" page to include only students who are active in entity
5. Update "Total Hours" Column on "My SLPs" to only include courses with participation status of "In Progress"
6. Add row action gear to "Manage Enrollment Percentages" Screen allowing navigation to "FTE tab" on Student Learning Plan
7. Added student name on edit modal of "Assign Earned Credits to Graduation Requirement"
8. Added ability to assign Supplemental Certificated Teacher to a Class (for Team Teaching)
9. Ability to customize per subdomain the label displayed for subject/course records on the Monthly Progress Interface

10. Added ability to customize rollover dates for SLP Initiation per program
11. On parent role, add ability to hide/show per subdomain "Request Enrollment" link and ability to "Report Monthly Progress"

Bug Fixes
