

September 15th, 2020 - HS&B Features & Overview Q&A

Questions and answers from the September 15th High School & Beyond Features and Overview webinar are listed below. Please contact support@schooldata.net if you need further clarification.

High School & Beyond Tasks/Completion

1. How can I get the HSB Tasks completion page setup for my district?

- Get a copy of our Template ([click to view](#) or [click to make a copy](#))
- Discuss with other staff in the district on how you would like it setup. It is a district-wide setup.
- Send an email to support@schooldata.net with your district's filled in template.
- The SDS Support Team can then:
 - A: work to set this up for your district.
 - B: teach you or another how to setup these for your district.
- For an example and the same steps noted above, [click here](#).

Career Planner

1. Does any file type work when uploading a resume?

- If it is a file to select, then yes. If it is a Google document and they want to upload the "url", that isn't possible at this time

2. Is there a way to print the information for student files or is hardcopy documentation not necessary?

- From the HSB page, under Student Completion there is a Report in the Reports section that pulls in a variety of information from Career Planner.
- If there is a specific layout you need, we can create or update a report for your district. to add to my response, the print of mass or student is from HSB page under student completion

Four Year Plans

1. Question posed to attendees for feedback: In Waivers, what do you feel would make the most sense as to provide or not to students?

- Sequim: It makes sense to me that students would be able to request a waiver but the counselor would approve.
- Central Kitsap: Allow a student to request it, but counselor approves it.
 - I like the way the PPR was done, seen by student/parent and approved by counselor. However, more information around the ramifications of what this means may need to be added.
