

## Scavenger Hunt / Activities Samples

Review different data points covered during the training.

Create or select your questions to suit the needs of your audience.

Be sure to test with several user accounts to ensure all users can find them.

### Attendance Container

- Can you identify which of your students has the highest number of absences this year? In the last 30 days? What was their attendance last year?
- In your class, which group, males or females, is recording the higher attendance rate?
- What percent of students district-wide are meeting the 90% attendance threshold?

### Student Spotlight

- Full Name and Birthdate
- Attendance during the week of Oct. 5-11
- Are they enrolled in any special programs? (SPED, ELL, HiCap)
- Score on their prior year i-Ready Reading Winter Assessment
- Student's 3rd-period class and teacher

### Assessments

- Choose one grade level. What percentage of students met the standard for SBA Math for 2023?
- Find three students who scored below grade level on the i-Ready Fall Gr 6 Math assessment.
- Find two students with upward trends in their SBA ELA assessment scores.

### Risk Indicator

- Explore two students in your class who are at risk.

### Demographics

- Find two students with a Home Language other than English.
