

RISK INDICATOR VIEWER V2

The **School Data Risk Indicator Viewer** is designed to help users efficiently identify student risk levels.

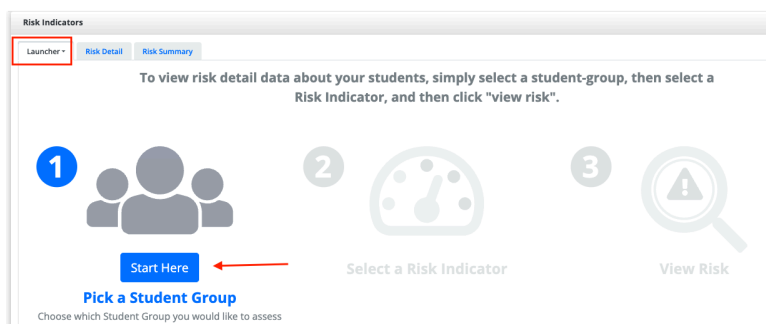

Understanding Risk Indicators

- **Risk Value:** A numerical value calculated based on the configuration of the indicator index. Color-coded **green/yellow/red**, indicating **low/medium/high risk**.
- **Risk Level:** A labeled description (e.g., low, medium, high) corresponding to the Risk Value, providing context without showing the raw numbers.

1. Start by navigating to your district's Homeroom Dashboard [http://\[yourdistrict\].schooldata.net](http://[yourdistrict].schooldata.net)
2. Click the **Action Gear** in the top right corner to quickly access the Risk Indicator Viewer. Alternatively, scroll down the dashboard until you locate the Risk Indicators Viewer.

3. Start in the **Risk Indicator Launcher** tab and click **Start Here, Pick a Student Group**.

4. Ensure the correct **School Year** is selected (default is the current school year).
5. Choose a student group from the provided list.
 - **My Groups:** Custom-created groups. Users may find further directions here: [Student Groups](#).
 - **Shared Groups:** Automatically shared groups.
 - **District-Wide**
 - **School-Specific:** Additional filters are available for school, grade, activity, class, and teacher.
 - Select the group to the right using the **plus “+” icon** and click **Add Student Groups**.

6. You will now be prompted to **Now Do This - Select a Risk Indicator**.
 - Click the **checkmark** to the left of the Risk Indicator, then click **Apply**. For more options, use a broad student group.

Indicator	Yes
<input checked="" type="checkbox"/> 504 Service Status	Yes
<input type="checkbox"/> 9th Grade Count of Fs	Yes
<input type="checkbox"/> Bilingual Education Service Status	Yes
<input type="checkbox"/> Credits Earned	Yes
<input type="checkbox"/> Current Year Gradebook Grades Index	Yes

7. Now, you will be prompted to select **View Risk**. Your view will depend on whether/how your district has customized its viewer. In addition, risk indicators will only deliver interfaces, functionality, and data corresponding to your role.

Risk Indicators

Launcher - Risk Detail Risk Summary

To view risk detail data about your students, simply select a student-group, then select a Risk Indicator, and then click "view risk".

8. You will see the calculated Risk Value for the selected group.
 - o Click on a **student's name** to open a detailed spotlight view of that student.
 - o **Hover** over the indicator's title for descriptions.
 - o Click into cells for expanded details.
9. You will see a list of tabs across the top of the container. Hover over the tab for the full title.

RISK INDICATOR SUMMARY

1. The **Risk Indicator Summary** is a default view that provides an overview of risk levels.
2. Click on student numbers or percentages to see the list of group members.

3. Use the **Screen View Actions & Options Gear** to switch to the **Risk Detail View** for more granular data.

4. There is a **Risk Index tab** for elementary, middle, and high school students. Each district is customizable.
5. Click the **magnifying glass** next to a student's name to access their profile.
6. Each student's **Risk Value** shows their risk compared to the total possible risk per term/grade.
7. Hover over the indicator's title for the indicator's **Description Tool Test**.
8. Click into a cell to expand the details of the indicator. A table will display additional information (e.g., classes with failing grades) if additional details are available.
