

Student Growth Chart (Connect)

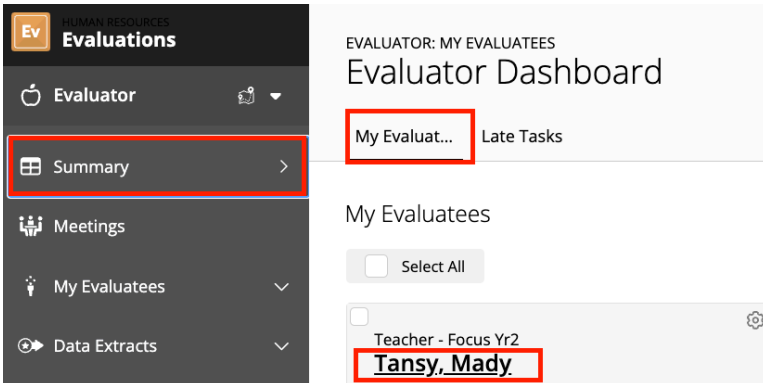

Adding Student Growth Charts or other Charts

Depending on your district settings, different tasks allow Charts to be created and attached. This chart illustrates student growth, using performance levels, from one assessment to another. This is a longitudinal cohort chart; students must have taken both selected assessments to be included in the chart. Teachers find this chart helpful for showing student growth and monitoring instruction as evidence for the Teacher Performance Evaluation Program (TPEP).

Evaluator:

1. Start under **Summary** in the left navigation menu.
2. The My Evaluatees list is also accessible on the left navigation menu under **My Evaluatees**.
 - Click the **arrow** to reveal the list of evaluatees assigned to you for management.
3. You will see a list of My Evaluatees. Click the Evaluatee name you want to manage.

4. You will default to the **Tasks tab** of the **Manage Evaluation Year page**, where you will see a data table of the tasks for that evaluatee.
5. Click the **magnifying glass** next to the chosen task with a **Growth Charts subpage (tab)**.

Level Change Totals

This displays the count of students for each level change and the total student and level counts.

Cohort Change

This displays the average number of level changes per student in the group. In addition, the percentage of students who either grew in levels or maintained proficiency is displayed.
