

## ALE Release Notes : July 23, 2021

### New Features

1. New Monitor Intervention Plans Page for Program Manager and Secretary
2. Add button on Manage Attendance page to mark “Attendance Taking Was Completed” for tracking purposes
3. Add selected rows action to Certificated Teacher My Student Learning Plans page to “Mass Approve SLPs”
4. Update logic to account for dual enrolled/returning students
  - a. Each student may now have one active SLP per subdomain rather than per district
  - b. A returning student may have a new SLP created, provided the original SLP has been Concluded
5. Add menu for configuring Monthly Progress view per district, allowing for unique configuration to meet district need
6. Year “toggle” on Student Learning Plans and All Classes pages to allow for easily switching between years and quicker loading of current year data
7. Certificated Teacher summary page updated with relevant data notifications
8. Update default setting for creating ALE parents so that secondary families also have accounts created by default, rather than just the primary family
9. Add controls to Manage ALE Users table that allows for linking ALE Parents and Students, as well as updating the email address for ALE Parents
10. Now capturing initial class enrollment data point

### Configurations/Updates

1. Replace “Excused” column on Manage Attendance table with Attendance Designation field (preloaded with Excused and Unexcused for all programs)
2. Add Event Calendar Link to left nav for all roles
3. Refine Create Subject/Course records from SIS feature
4. Disable editing of start/end dates on Class Schedule form to rely solely on start/end dates from Class Details page
5. Update logic so that marking existing Subject/Course record as dropped, withdrawn or completed does not set course approval status to pending
6. Update “Days Since Last Contact” column on Monitor Weekly Contact table to use School Year Start/End Dates and Excluded Dates configured on ALE Data Admin Role
7. Add all Reference data selections to Registrar role left nav
8. Added button in settings for select Data Tables to “Reset Data Table Settings”

which returns the table to the defaults

9. Allow parent to sign up individual students for Calendar Events
10. Create custom screen view to surface Health data in Manage Attendance interface for PowerSchool Districts
11. Create Procedure for Data Admin to create all missing Monthly Progress Records and Weekly Contact Requirement Records based on SLP start/end dates
12. Remove the “Notify Secretary” column on the Manage Attendance interface for those districts using the planner view, where this feature doesn’t apply
13. Update Guide to Offering ALE with newest 2021 version
14. Add data table settings form to require the selection of a grade level to view learning standards in left navigation “Reference Data”

### **Bug Fixes**

1. Updates for incorrect date being captured when weekly contact entered on a Saturday
2. Enable application to automatically accommodate Daylight Savings Time Changes each year
3. Change Event Calendar description field to correctly be labeled “required”
