# Introduction

## Overview

The following document will highlight the various improvements that we have made to our ALE application. This release contains:

- 5 Featured Features
- 9 New Features
- 12 Improvements
- 7 Tasks
- 16 Configurations
- 4 Bug Fixes

<https://schooldata.net/suite/applications/alternative-learning-experience/>

# Highlighted Features

## ALE-2094/ALE-2048

Added the ability to multi-select students in Class Monthly Progress Table and Progress by Course for yes/no designation or comment.

Multiple students can be chosen on both Progress by Course and Monthly Progress by Class data tables with selected rows action. Using the resulting form, yes/no designation and progress comment can be entered for all selected students.

The screenshot shows the 'ALE Class Monthly Progress Multi-Update' form. The form has a title bar with a 'Validate' button and a close button. The main content area is titled 'Monthly Reporting' and contains three fields: 'Month (required)' with a 'Select' button, 'Is Satisfactory? (optional)' with a dropdown menu, and 'Comment (optional)' with a text area. The form is overlaid on a table of student progress data. The table has columns for student names, class names, and progress dates. The 'Update Progress' button is visible in the top right corner of the table. Three red boxes with white text provide instructions: '1. Choose students' points to the student selection checkboxes, '2. Select "Update Progress"' points to the 'Update Progress' button, and '3. Enter data into the form to be applied to all selected students' points to the form fields.

## ALE-2091

Update Procedure so that some Class changes are automatically reflected on Subject/Courses for enrollment method 2 districts

When the following fields are changed and saved on a Class, associated subject/course records for currently enrolled students will be automatically updated to reflect those changes: Certificated Teacher, Hours, Start Date, End Date, Class Type.

## ALE-2047

Add Monitor Class Progress Page

Under the Monitor menu for Program Manager, Secretary, and Certificated Teacher, a new data table lists current year classes and icons indicating whether Monthly Progress yes/no designation

has been made for all enrolled students. Hovering over any single icon provides details about how many students have progress designations made, and for Teachers, the title of the class is a clickable link that leads to the Monthly Progress

### ALE-1688

Add optional email notification for registrar/cert teacher when students add/drop ALEClasses

A date can be entered in Data Admin Role under Configuration>Add/Drop Notification Start Date. After that date, anytime a student adds or drops a class enrollment, an email notification will be sent to both the Certificated Teacher and any Supplemental Teachers of the class and any users in the program with the Registrar role.

Set Add/Drop Email Notification Start Date

Date (optional)

When this date is set, any classes added to or dropped from student schedules will trigger an email notification to the Cert Teacher(s) assigned to the class and anyone with the Registrar role if the current date is later than the saved date.

Save

## New Features

ALE-2117

Add the ability in Data Admin to manage Assessments available in Assessment Test Selector in the SLP Details page.

ALE-2091

Update Procedure so that some Class changes are automatically reflected on Subject/Courses for enrollment method two districts
