

Data Tables Summary V2

Data Tables are a fast and easy method to generate multiple data sets using basic input selections. Like Data Grids, Data Tables are comprehensive spreadsheets composed of data columns to present information.

IDENTIFIERS

<p>504 Plans</p> <p>Additional Unique Identifier List</p> <p>Email Addresses for Students</p> <p>Guardian Contact Information</p> <p>Individual Health Plans</p> <p>Student HiCap Plans Data Table</p> <p>Student Learning Plan Progress</p> <p>Student Race/Ethnicity Data Table</p> <p>Student By Student Group</p>	<p>Identifier Data Tables allow you to download a list of students in a group in a CSV/Excel file. The file may then be downloaded and distributed for further manipulation, combined with other data, for record-keeping, or for any other purpose.</p>
--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

BEHAVIOR

<p>Discipline Events</p>	<p>Behavior Data Tables allow you to download a list of students in a group in a CSV/Excel file. The file may then be downloaded and distributed for further manipulation, combined with other data, for record-keeping, or for any other purpose.</p> <p>Information may help districts monitor the effectiveness of behavioral systems and note trends in specific incidents or referrals.</p>
