Attendance Data Tables V2

Data Tables are a fast and easy method to generate multiple data sets using basic data input selections. Similar to Data Grids, Data Tables are comprehensive spreadsheets composed of data columns to present information.

Attendance Data Tables allow you to download a list of students in a group in a CSV/Excel file. The file may then be downloaded and distributed for further manipulation, combined with other data, for record-keeping purposes, or for any other intended use.

Multiple options for Interval Enrollment/Withdrawal Statuses allow the report to be used for various purposes by school buildings or districts.
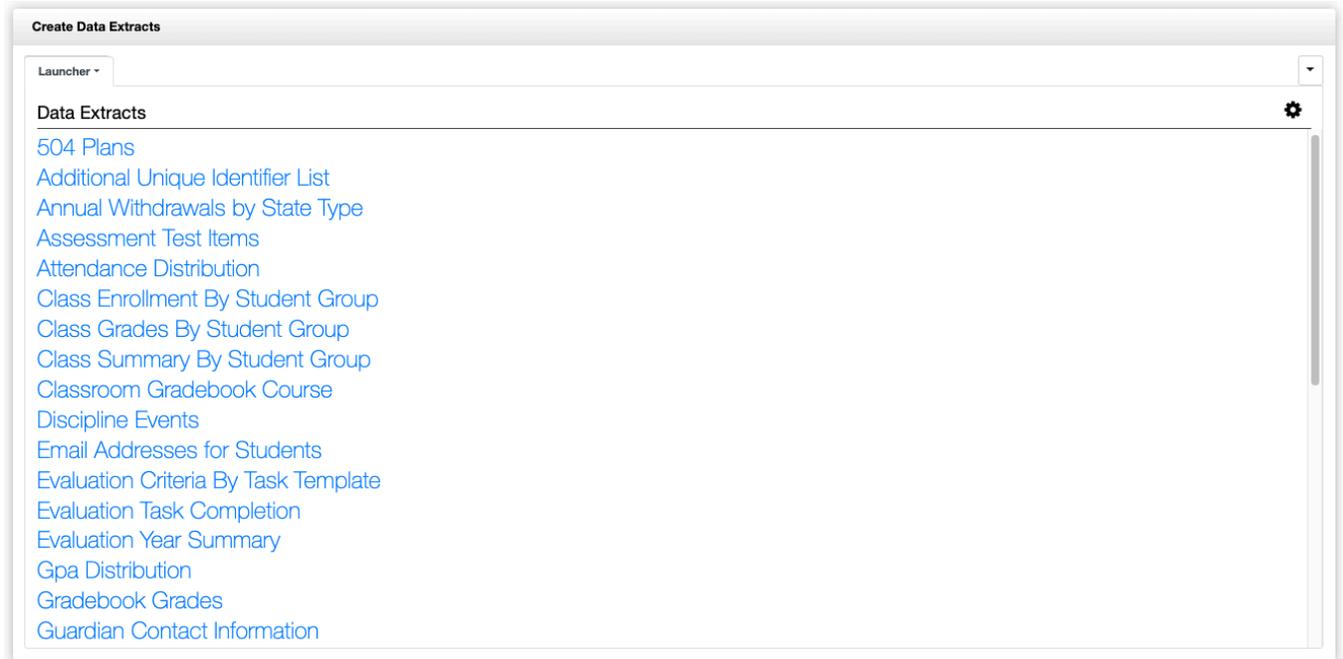

ACCESSING DATA TABLES

1. Navigate to Homeroom Dashboards and select the **SDS dashboard you want to use**. NOTE: Refer to the "Homeroom Dashboards - Basic Dashboard Navigation" help article for instructions on accessing various dashboards.

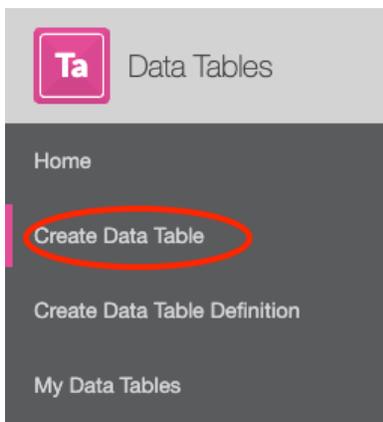

2. Scroll to the bottom of your dashboard to find the **Create Data Extracts Container** and select your chosen Data Table.

3. Alternatively, Data Tables can be accessed by navigating to the Data Tables App within the Data Extracts Bundle and clicking "**Create Data Table"** from the left-hand navigation menu.

4. Next, select **Browse Category** from **Data Extracts,** search for your chosen Data Table**,** and select **Build Table.**

ANNUAL WITHDRAWALS BY STATE TYPE

Choose Selections:

- **Student** - Birth Date, Grad Requirement Base Year, Email Address, Primary Mailing Address, Primary Physical Address, Advisor
- **Identifiers** - Student ID, SSID, External Application ID, Other ID

- **Current Enrollment** - Grade Level, Predominant School, Currently Enrolled Status, Current GPA, Earned Credits, Failed Credits
- **Demographics** - Gender, Federal Ethnicity/Race, Other Races, Student Languages, Native Language, Home Language
- **Services** - 504, Bilingual Education, Gifted, LAP Language Arts, LAP Math, LAP Reading, Special Education, Title 1 Reading
