

## Connecting the MiDataHub to SchoolData

Districts may authorize SchoolData/Munetrix to access student data from the Michigan DataHub to streamline imports.

1. Log in to the **MiDataHub Cockpit Application**, select your **ISD**, and then select your district.  
<https://www.midatahub.org/>
2. Scroll to the bottom of the screen. In the bottom right-hand corner under **API Integrations**, click **Add Integration**.
3. Choose the following:
  - a. **System Type:** Data Warehouse
  - b. **Vendor:** Munetrix
  - c. **System:** Munetrix - v1
  - d. **Profile:** None
4. Click **Submit**.

5. Scroll to the bottom of the screen again and click on '**Data Warehouse: Munetrix 1**'.
6. The resulting screen has set an **Authorization URL**, **API Endpoint URL**, **Key**, and **Secret Values**. Please update our team that this task has been completed, allowing us to use the MiDataHub Vendor Portal to securely obtain these credentials.
