

Delving into Data (Connect)

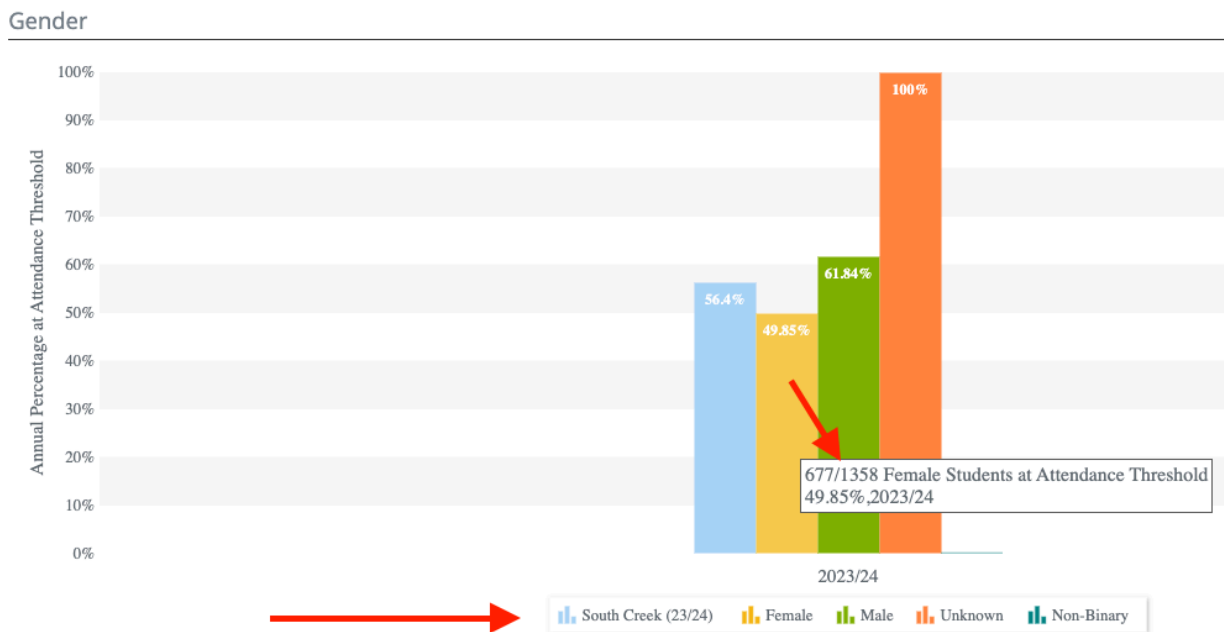

Here is an overview of the features and options available within Homeroom Dashboards for analyzing assessment data through charts, assessment sets, subgroup comparisons, and risk indicators.

Key Functionalities

- **Charts** provide detailed data insights, interactive features like clickable elements, and options for creating static groups.
- **Assessment Sets** provide various ways to analyze assessment data, offering customizable settings and views.
- **Risk Indicator Viewers** offer several options for viewing where students are positioned on the threshold of student risk. **Helpful Resource:** Homeroom Dashboards Risk Indicator Viewer (Connect) <https://support.schooldata.net/hc/en-us/articles/36592230922771>

Chart Features

1. **Hover** over any bar or column to reveal included **details**.
2. Below the chart, **click any identifier** to **hide** the bar or column from the chart to narrow viewing results.

3. **Click the bar or column** to display a list of students contributing to the data points.
 - Connect: Customize the **Chart Data Settings** to display Horizontal (Bars) or Vertical (Columns) and Show Data Labels.
4. Click the **student photo/magnifying glass** to open the **student spotlight** for more detailed information about the student.

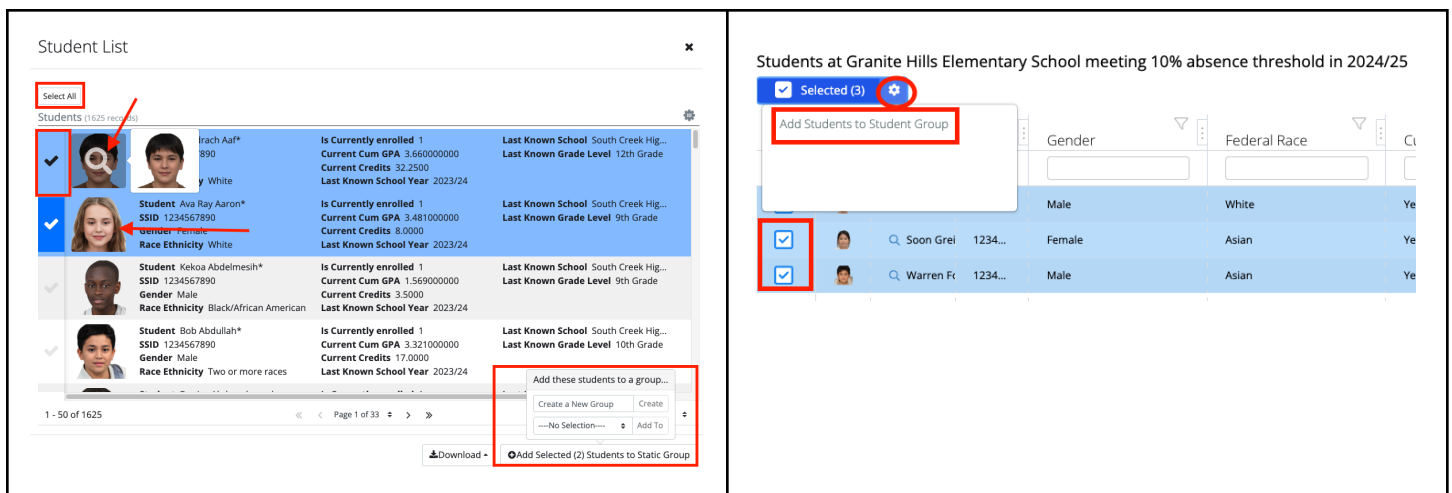

5. Select students from the student list to create a **static group** for further analysis and evaluation.

Create a Student Group

1. Click one or more **checkboxes** to the far left or the top checkbox to select all. Click the **Selected Gear** in the top-left corner and choose **"Add Students to Student Group."**
2. Enter a name in the **Create a Name Group** field and click **Create**. Alternatively, select a previously created static group from the **dropdown menu** and click **Add To**.

The screenshot illustrates the process of creating a student group. On the left, the 'Student List' shows individual student profiles with checkboxes for selection. On the right, a filtered view of students is shown with a 'Selected (3)' indicator and an 'Add Students to Student Group' button. A dropdown menu is open, showing options to 'Create a New Group' or 'Add To' an existing group.

Using Assessment Chart/Data Table Options Connect

- **Data Settings:** Click **"Edit Page Settings"** for the dashboard you are currently viewing. You can change the available filters to change your Default Dashboard Data Settings: School Year (Student Enrollment), School Years (Student Data), Schools, Student Filters, and Student Groups. After making your selections, click the **View Dashboard** button.

- **Download:** Click the **Download Chart** icon in the top right to download the chart image.
 - **Display Options:** Click the **Show Column Panel** to hide, show, or arrange the various columns.
1. Navigate to the **Assessment container** by selecting it from the **Assessment tab** dropdown menu.
 2. To view aggregated data, select a **tab screen view** at the top of the container. Hover over the tab to view the full title.

The screenshot shows the 'District Administrator: View School District Dashboard' for Tahoma School District. The 'Assessments' menu is highlighted in red. Below it, the 'WA. State Math Test by Grade Level' section is visible, with a red box around the grade level tabs (3rd to 12th Grade Math) and another red box around the 'Chart Data Settings' button.

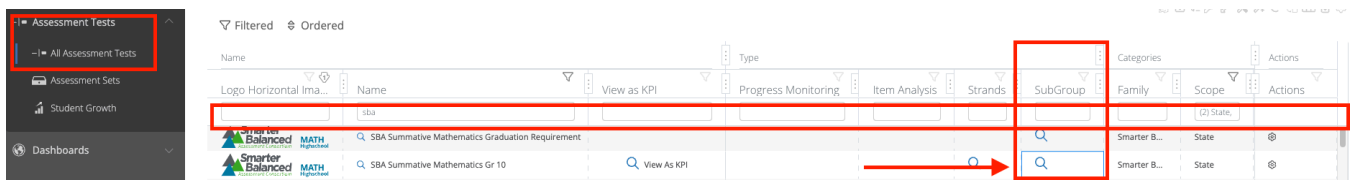

Left Navigation - Assessment Tests

All Assessment Tests: This feature allows you to search for assessments by name, type, category, and school-year score counts.

- **View as KPI:** Screen views for District-Wide, by Schools, Federal Races, Genders, 504, Bilingual, Free/Reduced, Gifted, LAP, Special Education, Title, and Homeless.
- **Progress Monitoring**
- **Item Analysis**
- **Strands**
- **Subgroup Comparisons** are available in many single assessment views. They allow users to disaggregate an assessment by various subgroups (e.g., race/ethnicity, program, gender).

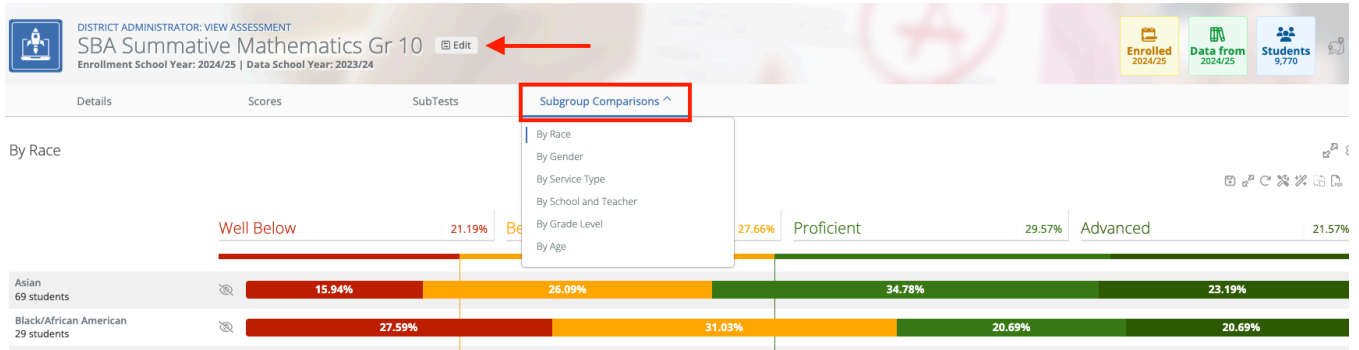

Subgroup Comparisons (Connect)

1. Start under **Assessment Tests** in the left navigation menu and choose **All Assessment Tests**.
2. Use the **column filters** to sort and search for an assessment.
3. From the **Subgroup column**, click the **magnifying glass**.

The screenshot shows the 'Assessment Tests' table. The left navigation menu is open, and 'Assessment Tests' is selected. The table has columns for Name, Type, Progress Monitoring, Item Analysis, Strands, SubGroup, Family, Scope, and Actions. The 'SubGroup' column filter is highlighted with a red box, and a magnifying glass icon is visible in the filter dropdown.

4. Use the **Edit Page Data Settings**, located next to the title, to filter student data.
5. Click the **Subgroup Comparison tab** at the top of the page and select from the dropdown menu. (by race, gender, service type, school and teacher, grade level, or age).

Assessment Sets: This feature allows you to search for assessment sets by name, subject area, number of assessments, number of scored assessments, and whether they are shared district-wide.

Student Growth: This will allow you to view student growth for assessments.
