

Student Data Grid Guide (Connect)

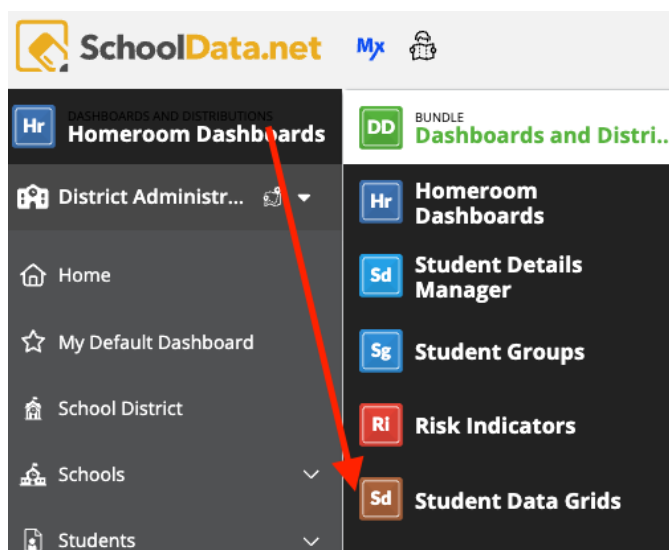

A Student Data Grid is a centralized system or framework that consolidates and organizes various types of student data into a customizable, structured format. It provides educators, administrators, and other stakeholders with a comprehensive view of students' academic and behavioral performance. The grid combines data from multiple sources (demographics, assessment scores, attendance, grades, graduation requirements, and discipline), allowing easy analysis and decision-making. SchoolData has consolidated data from 13 categories and 51 data sources, with over 1,300 data columns available.

Creating a Student Data Grid

1. Click the **Site Navigation** to begin. Then, click **Dashboards and Distributions**, choose **Student Data Grids**, and **Launch**.

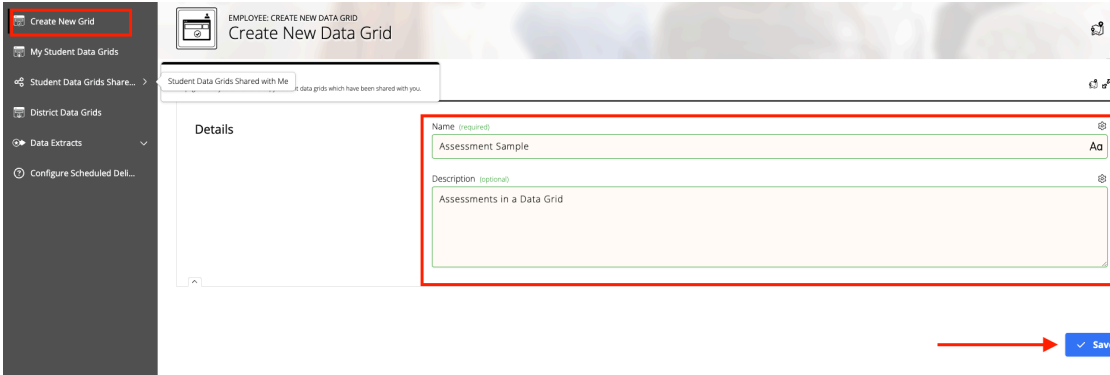

2. If you are already in the **Dashboards and Distributions Bundle**, select the application name from the left navigation to open a bundle list and choose **Student Data Grids**.

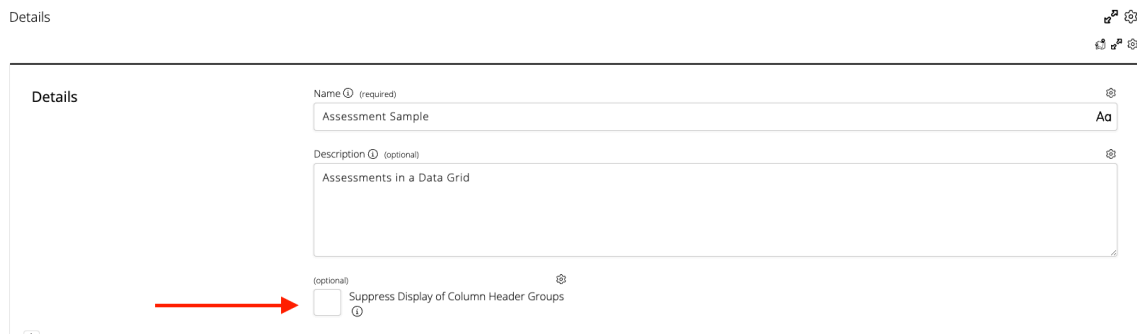

Details Tab

1. Start under **Create New Grid** in the left navigation menu.
 - a. Fill in the **Name** and **Description** for the grid.
 - b. Click **Save**.

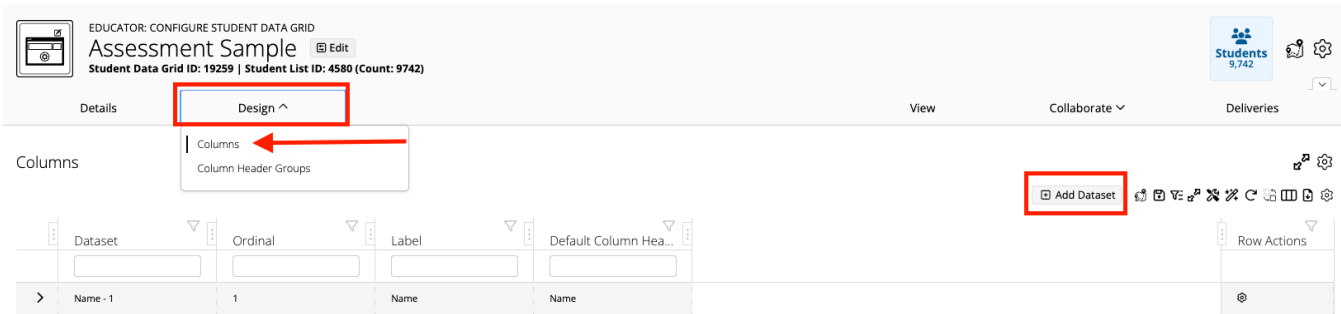

2. You will be taken to the **Configure Student Data Grid**, which features several tabs across the top. You will default to the **Details** tab, where the **Name** and **Description** will now be automatically populated.
3. Optionally, select the **Suppress Display of Column Header Groups** checkbox. This will exclude the column header groups in displays and downloads when selected.

Selected: 0 [View Selected](#)

Cancel **Accept**

5. You will now see the **Configure Student Data Grid Dataset** with tabs across the top. You will default to the **Details** tab.
6. The **Label** and **Default Column Header Group** will automatically populate.
7. Click the **Columns (Datasource/DataSet Columns)** field and choose one or more Data Source Columns by clicking the **checkbox** to the left. Click **Accept** when finished.
8. Click **Save**.
9. Different data sources will produce different tab selections. Continue to the next tab (e.g., Assessments> Assessments Tab). Or, click the **"X"** in the top right corner to close the window and return to the **Configure Student Data Grid** window.

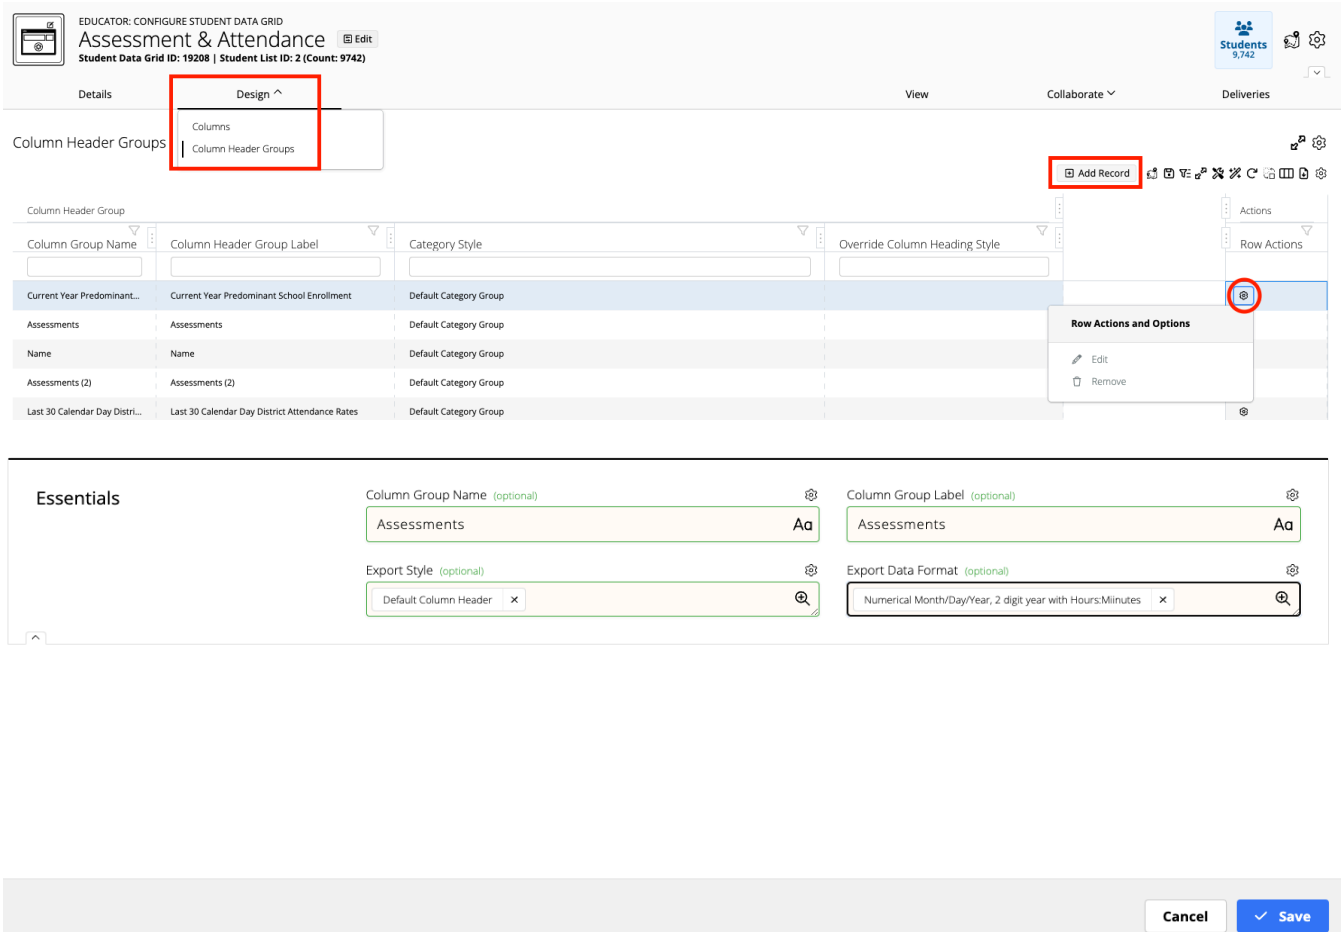

10. Click the **Row Actions Gear** to the far right of the data set to **Configure Dataset**, **Clone Dataset**, or **Delete Dataset**.
11. Click the **arrow** to the far left to open the nested data table, which shows specifics about the selected dataset.
12. Click the **Row Actions Gear** to the far left of the nested dataset to **Edit Column**, **Configure Column**, or **Remove Column**.

Design Tab - Column Header Groups

1. Click the **Design Tab**, then choose **Column Header Groups** from the dropdown menu.
2. Click **Add Record**.
3. Fill in a **Column Group Name** and **Column Group Label**.

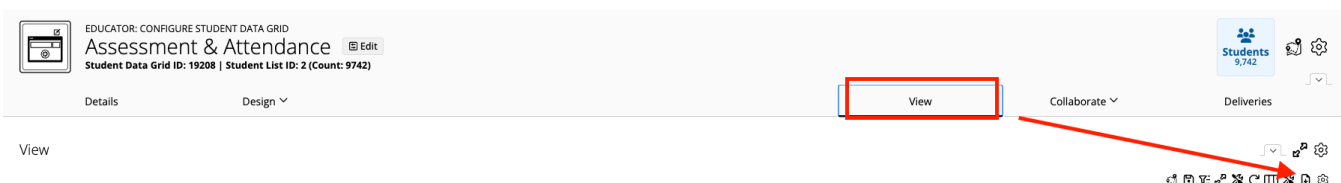

4. Click the **Export Style** field, then click the **checkbox** to the left of the style.
5. Click the **Export Data Format** field, click the arrow to the left to reveal detailed formats, then click the **checkbox** to select the format.
6. Click **Save**.
7. Click the **Row Action Gear** to the far right to **Edit** or **Remove**.

The screenshot shows the 'Assessment & Attendance' configuration page. The 'Design' tab is active, showing a table of column header groups. A red box highlights the 'Design' tab, and another red box highlights the 'Add Record' button. A third red box highlights the gear icon for row actions. Below the table is the 'Essentials' section with input fields for 'Column Group Name', 'Column Group Label', 'Export Style', and 'Export Data Format'. At the bottom right, there are 'Cancel' and 'Save' buttons.

View Tab

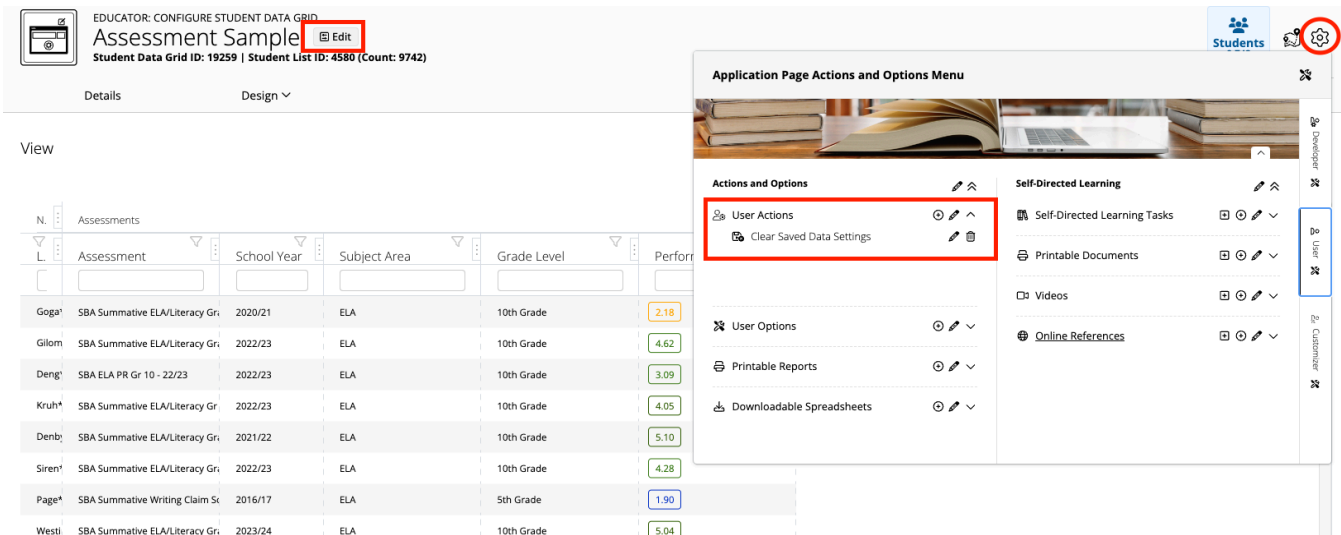

1. Click the **View** tab to check your setup with student data. If you want additional assessment data points, return to the **Design** tab. You can also clone a setup or edit the dataset.
2. Click the **Download icon** in the top right to download an Excel document.

The screenshot shows the 'Assessment & Attendance' configuration page with the 'View' tab selected. A red box highlights the 'View' tab, and a red arrow points from it to the 'Download icon' in the top right corner.

Other Tips

- As you add, remove, and reorder columns on the design page, sometimes the columns can become disorganized. If needed, reset the view by clicking the **Gear icon** at the top right near the student count.
- Under "User Actions," click "Clear Saved Data Settings."
- Click **Edit Page Settings** following the title on the view page to change and filter the viewed students in the data grid.
- Use the **Collaborate/Deliveries** to generate a spreadsheet with files named differently.

The screenshot shows the SchoolData.net interface. At the top, there is a header with the text "EDUCATOR: CONFIGURE STUDENT DATA GRID" and "Assessment Sample" with an "Edit" button. Below this, there are tabs for "Details" and "Design". The main area displays a data grid with columns for "Assessment", "School Year", "Subject Area", "Grade Level", and "Performance". The grid contains several rows of data, including assessments for Goga, Gilom, Deng, Kruh, Denb, Siren, Page, and Westi. On the right side, there is an "Application Page Actions and Options Menu" which is open. This menu has a "User Actions" section with a red box around it, containing "User Actions" and "Clear Saved Data Settings" options. Other sections include "Self-Directed Learning", "User Options", "Printable Reports", and "Downloadable Spreadsheets".

N.	Assessments	Assessment	School Year	Subject Area	Grade Level	Performance
Goga*	SBA Summative ELA/Literacy Gr	2020/21	ELA	10th Grade	2.18	
Gilom	SBA Summative ELA/Literacy Gr	2022/23	ELA	10th Grade	4.62	
Deng*	SBA ELA PR Gr 10 - 22/23	2022/23	ELA	10th Grade	3.09	
Kruh*	SBA Summative ELA/Literacy Gr	2022/23	ELA	10th Grade	4.05	
Denb	SBA Summative ELA/Literacy Gr	2021/22	ELA	10th Grade	5.10	
Siren†	SBA Summative ELA/Literacy Gr	2022/23	ELA	10th Grade	4.28	
Page*	SBA Summative Writing Claim Sc	2016/17	ELA	5th Grade	1.90	
Westi	SBA Summative ELA/Literacy Gr	2023/24	ELA	10th Grade	5.04	

Dashboard Integration

If you wish to add the data grid to a dashboard, request support by sending a ticket to support@schooldata.net.
