
2025.12.19 SDS Release Notes

Date: December 19, 2025

Version: 2025.12.19

Homeroom

New Features

- Developed a Workbook for the **Attendance Proportionality Report**, which includes: Student Counts, Program Enrollments, and Student Data Tables.
- Created a view on **Student Dashboards** to display **EWM Risk** from the Early Warning Module application.
- Added a new **Data Extract Data Table** called **WA WIDA Expected Growth**.
 - Designed using OSPI's Multilingual Learner Expected Progress for WIDA ACCESS Overall Composite Scores chart.

Improvements

- Added workbook downloads to the **Documents tray**.
- Added workbooks to **Data Extracts** for appropriate **Application User Roles**.
- Added the **Workbooks Management page** for **Data Extracts** to **Data Administrators**.
- Updated the **Student Growth District Dashboard** with the following:
 - Add an informational guidance container.
 - Updated all containers on the **State Assessment page** to include standard state assessments for: AZ, GA, ID, IL, MI, NM, PA, WA, and WY.
- Added “**Enrollment Counts**” to the **Classes Data Tables**, where users view lists of classes to access the class dashboard.

Student Data Grids

New Features

- A new field for **school code** has been added to the following Student Data Grids data sets:
 - **Current Year Predominant School Enrollment**
 - **Current District Enrollment**
 - **Historical School Enrollment**

Improvements

- A “**Copy To Me**” row action has been added to the **My Student Data Grids Data Table**, allowing users to quickly create a copy of one of their own Student Data Grids.

ALE

New Features

- Added workbooks to **Data Extracts** in the ALE user roles.
- **ALE v2:** Added a new **Reporting Class Terms selector** form element to the **Create Class| Manage Class** pages: In the **Dates Section** of the **Details Tab**.
 - This is used to set reporting class terms on the **Manage Class > Grade** page.

Improvements

- **ALE v2:** Updated **Manage Class > Dates Section > Class Term Selector** to prevent multiple selections.

Evaluations

New Features

- Added workbooks to **Data Extracts** for appropriate Application User Roles.
- Added the workbooks management page for **Data Extracts to Data Administrators**.

Improvements

- Recreated the **Evaluation Criteria by Task Template Data Extract** as a workbook
 - Based on the selections made, this will now generate a worksheet for each position.

Bug Fixes

- Fixed an issue in **ALE** where courses populated by Student Information System (SIS) classes were not updating the wSLP course end date when a student withdrew from a SIS class before the end date.
- Resolved issues in **Future Ready Skills**.
 - Indicators were not being displayed when submitting evidence for multiple students, even if grade levels were not set up.
 - Fixed missing indicators when submitting evidence for a single student. Addressed missing data on the **Overall Summary Details Self Self-Reflection**, and **Evidence of Skill pages**.
 - Fixed missing data in the **Collection of Evidence data table**.
 - Addressed missing data in the **Self-Reflection Details table**.
 - Fixed the error causing the **Overall Summary page** to be blank.
 - **Growth indicators** now display in the correct ordinal order.

-
- The **Public Feedback Form** now displays Future Ready Skill (FRS) Indicators and allows selection of the evidence level.
 - **Evidence Levels** now display in the correct ordinal order.
 - **Email** now contains a correct link to the public feedback form.
 - **Set Goal Indicators** now display in ordinal order.
 - **Self-Reflection Indicators** are now optional, as intended.
 - **Skill Level Value Selections** now display in numerical order by ordinal.
 - In **Homeroom**, corrected data table and row actions for editing user-defined assessments for School Administrator, Specialist, and Teacher roles.
 - In **Evaluations**, fixed an issue where the **observations print report** was not including evaluation criteria and performance levels for some positions.
