

ALE Creating Intervention Plans V2

Suppose a student has an unsatisfactory monthly progress report. In that case, an intervention plan must be developed, documented, and implemented by a certificated teacher in conjunction with the student and, for students in grades K-8, the student's parent(s). At a minimum, the intervention plan must include at least one of the following interventions:

- Increasing the frequency or duration of contact with a certificated teacher to enhance the ability of the certificated teacher to improve student learning;
- Modifying how contact with a certificated teacher is accomplished;
- Modifying the student's learning goals or performance objectives;
- Modifying the number or scope of courses or the content included in the learning plan.

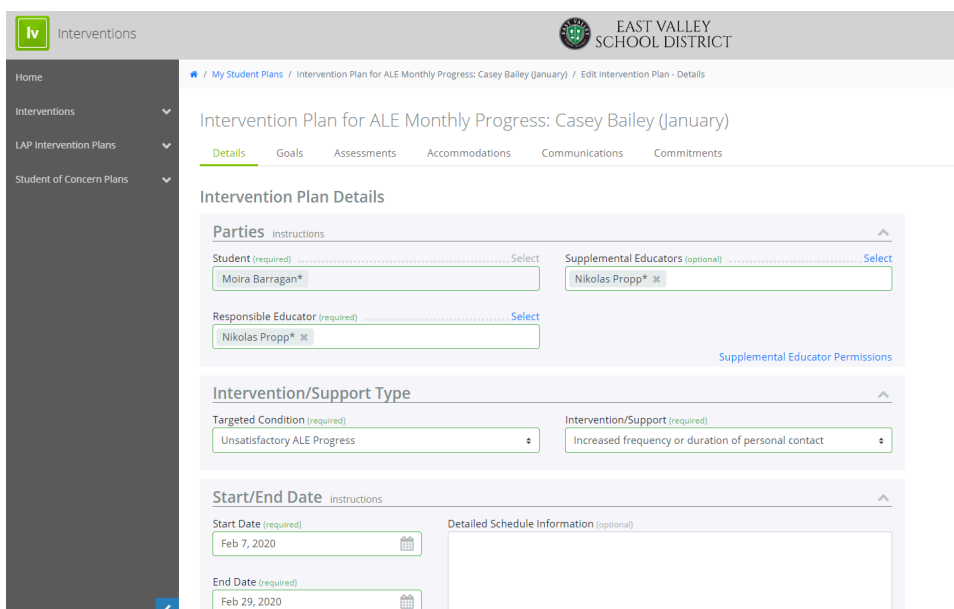

1. Immediately upon a finding of unsatisfactory monthly progress, an intervention plan will be created and linked to the **Monthly Progress Page**:

The screenshot shows the 'Monthly Progress' page for Duwayne Moscinski*. The table below is a representation of the data shown:

Reporting Month	Progress Determination Made	Progress is Satisfactory	Interventions
March 2020	Yes	unsatisfactory	View Intervention Plan

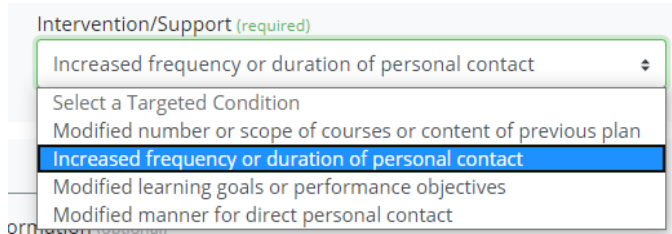

2. Clicking this link will open the **Interventions Application** in a new tab, where many selections have been automated to save time.
