

Highlight of New Features in Homeroom Dashboards CONNECT

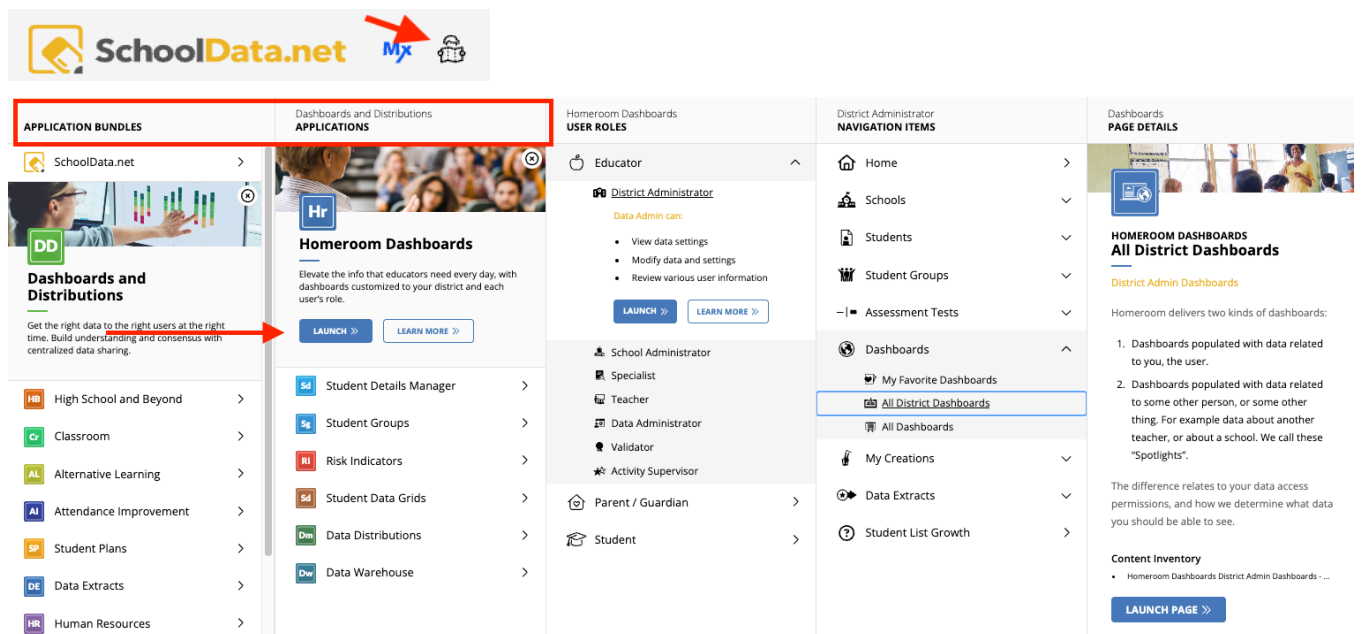

This document aims to share with you all the great new features of moving from V2 to Connect. NOTE: If your district has created custom dashboards, not all the containers may be present. Please contact your customer support representative at support@schooldata.net.

Key Improvements and Design

- **Direct and Visible Access:** Emphasizing ease of finding and using features.
- **Streamlined Workflows:** Making actions more intuitive with clickable elements and better page organization.
- **Centralized Management:** Consolidating functions for better usability.
- **Enhanced Information Display:** Improving the presentation of data for easier review.
- **Data Accessibility:** Users in all roles will have access to relevant data in various formats, such as reports, data tables, and charts, directly within the **Data Extracts** section in the left navigation menu.

Specific Changes

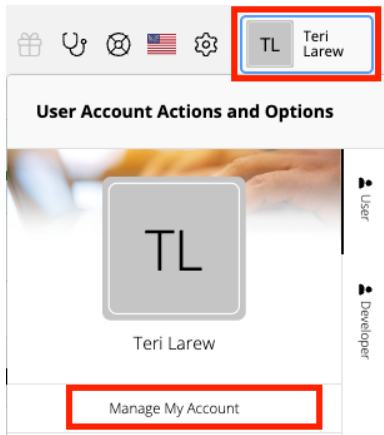

1. **Login Location:** [your district\).schooldata.net/connect/#/homeroom](http://(your district).schooldata.net/connect/#/homeroom)
 - **Helpful Resource:** <https://support.schooldata.net/hc/en-us/articles/13547641538323>
2. **Application Navigation:** Click the **Site Navigation button** (person holding a map icon) next to the SchoolData.net logo in the upper left. In the new modal, click the **application bundle**, select the **application**, select the **user role**, and then click **Launch** to be taken to your **Home—Getting Started** page.
 - **Helpful Resource:** <https://support.schooldata.net/hc/en-us/articles/360059473994>

The screenshot displays the SchoolData.net Homeroom Dashboards interface. At the top left, the SchoolData.net logo is visible with a red arrow pointing to a 'Mx' icon and a person icon. Below the logo, there are several navigation panels:

- APPLICATION BUNDLES:** A list of bundles including 'SchoolData.net', 'Dashboards and Distributions', 'High School and Beyond', 'Classroom', 'Alternative Learning', 'Attendance Improvement', 'Student Plans', 'Data Extracts', and 'Human Resources'. A red arrow points to the 'Dashboards and Distributions' bundle.
- Dashboards and Distributions APPLICATIONS:** A section titled 'Homeroom Dashboards' with a description: 'Elevate the info that educators need every day, with dashboards customized to your district and each user's role.' It includes 'LAUNCH >>' and 'LEARN MORE >>' buttons.
- USER ROLES:** A list of roles including Educator, District Administrator (with sub-options for Data Admin can, View data settings, Modify data and settings, Review various user information), School Administrator, Specialist, Teacher, Data Administrator, Validator, Activity Supervisor, Parent / Guardian, and Student.
- NAVIGATION ITEMS:** A list of items including Home, Schools, Students, Student Groups, Assessment Tests, Dashboards (with sub-options for My Favorite Dashboards, All District Dashboards, All Dashboards), My Creations, Data Extracts, and Student List Growth.
- PAGE DETAILS:** A section titled 'HOMEROOM DASHBOARDS All District Dashboards' with a description: 'Homeroom delivers two kinds of dashboards: 1. Dashboards populated with data related to you, the user. 2. Dashboards populated with data related to some other person, or some other thing. For example data about another teacher, or about a school. We call these "spotlights".' It also includes a 'LAUNCH PAGE >>' button.

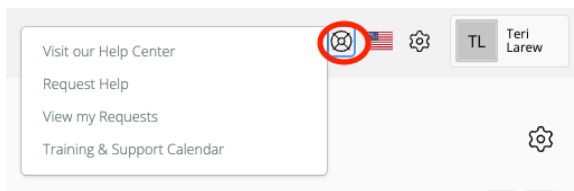

- The **User Settings and Options Menu** (My Account, Account Settings, Screen Settings) remains in the top right, with a few modifications. (e.g., Application Navigation and Content Menus can be collapsed - discussed later on.)

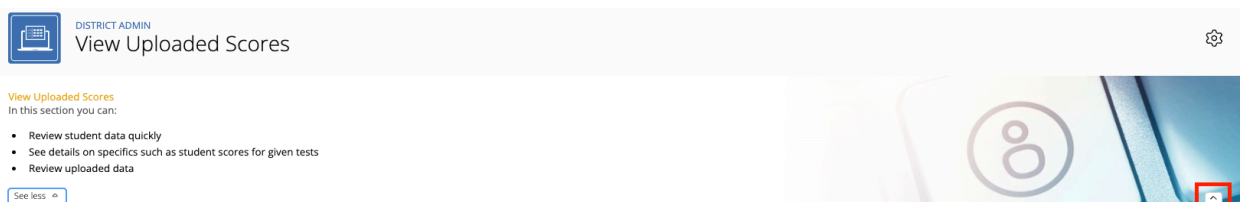

- Self-Directed Learning:** Click the **Self-Directed Learning** logo in the bottom left corner, select the Application/Role, and then click Task to view the task instructions.

- Our **Help Desk** (life preserver icon) is still available in the right-hand corner, as before, featuring our Help Center, Request Help, and View My Requests, just as you had in V2. But now adding the **Training & Support Calendar**.

- Additional **page guidance** has been added directly to many module pages and can be expanded or hidden as needed by clicking the arrow button in the bottom-right corner. This may also be set in **Manage My Account >> Always Display Content Menus**.

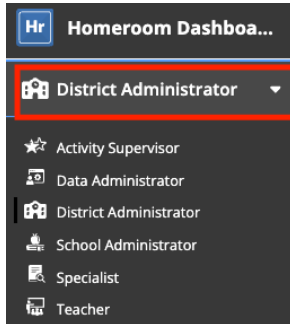

- Helpful Resource:** <https://support.schooldata.net/hc/en-us/articles/46011532020371>

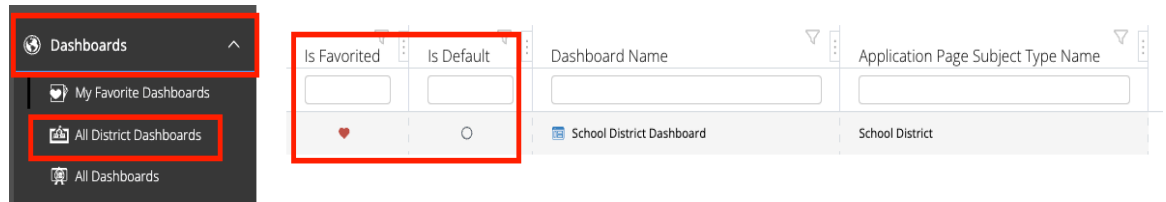

5. Dashboard Role and Dashboard Selection:

- Users operate in one role at a time. The role with the most granular permissions is automatically selected for you. Once a role is selected, only the pages and features accessible to that role will be

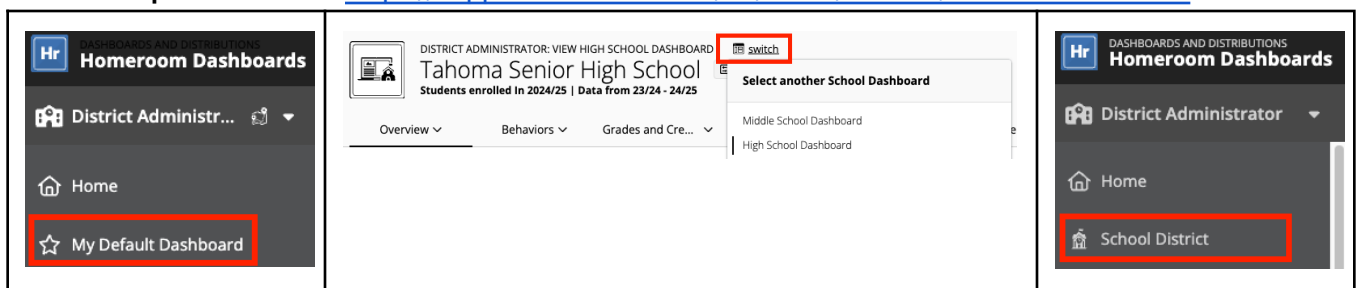

displayed. The role can now be changed quickly in the left navigation menu dropdown menu if needed.

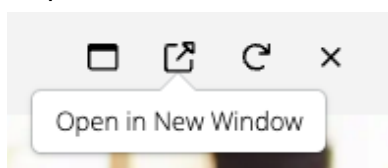

- Some **Dashboards** contain data related to you, the user (User-centric), while others contain data about other people or entities, such as another teacher or a school (Other-centric).
 - In the **Left Navigation menu**, select the dashboard you want to set as your default. You can also select other favorite dashboards. (**Dashboards > All Dashboards, My Favorite Dashboards**) The dashboard changes will be retained until cleared.

- Locate and open your default dashboard at any time by navigating to **My Default Dashboard** in the left navigation menu.
 - Change your dashboard selection at any time by clicking "**Switch**" next to the dashboard title.
 - Click **School District** in the left navigation to go directly to the School District Dashboard.
- **Helpful Resource:** <https://support.schoolata.net/hc/en-us/articles/13589932456979>

6. **Modal Overlay:** When content is clicked to view, a modal (popover Window) will appear. In the top right, click the "X" to close the window and return to where you left off, or click the "Open in new window" icon to open it in a new tab.

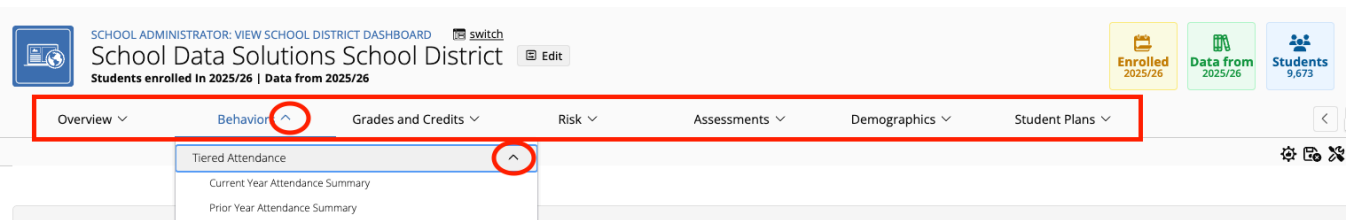

7. **Change Dashboard Data Settings:** Click **Edit** near the dashboard title or in the top-right colored info boxes to edit your page data settings. Numerous filters are available, including school year (student enrollment), school years (student data), schools, students, and student groups. In the top-right corner, you can easily view the page data parameters you set. (Student Count, Data Date, Enrollment Date).

- o **Helpful Resource:** <https://support.schooldata.net/hc/en-us/articles/43349939071507>

8. **NEW Subpage (Tab Menu):** A Tab Menu at the top of many pages makes it easy to navigate subpages. Click on a name from the dropdown menu to jump directly to that area. Click the **Arrow icon** to view further embedded pages.

9. **View Toolbar:** The top-right corner of all views includes additional icons for hiding and showing columns, downloading, expanding, and more.

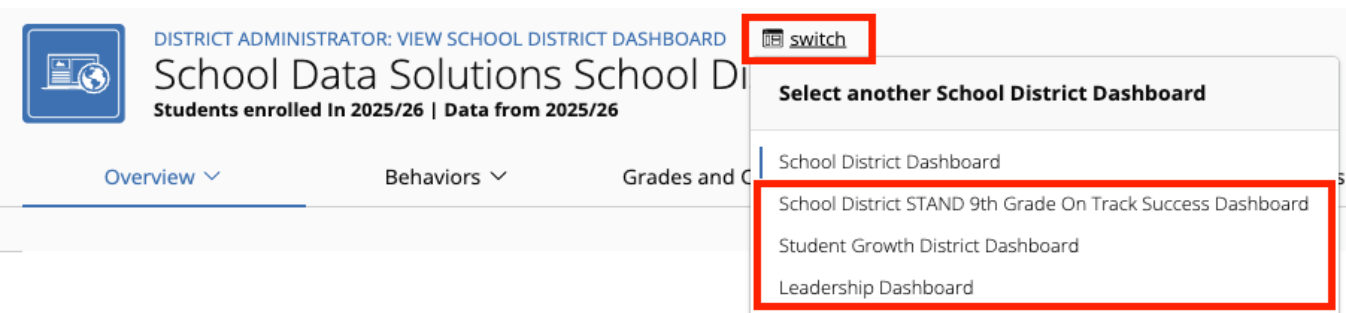

- o Expand/Collapse views at the top right of the container.

- o **Helpful Resource:** <https://support.schooldata.net/hc/en-us/articles/45778635874707>

10. More Quick Search options are available at your fingertips. Now search by School, Teacher, Student, Student Group, Class, Activity, Program, and more from the left navigation or Profile Lookup container.

11. **Dashboards added for STAND 9th Grade: On-Track Success, Student Growth, and Leadership.** Click **Switch** to the right of the page title to access them.

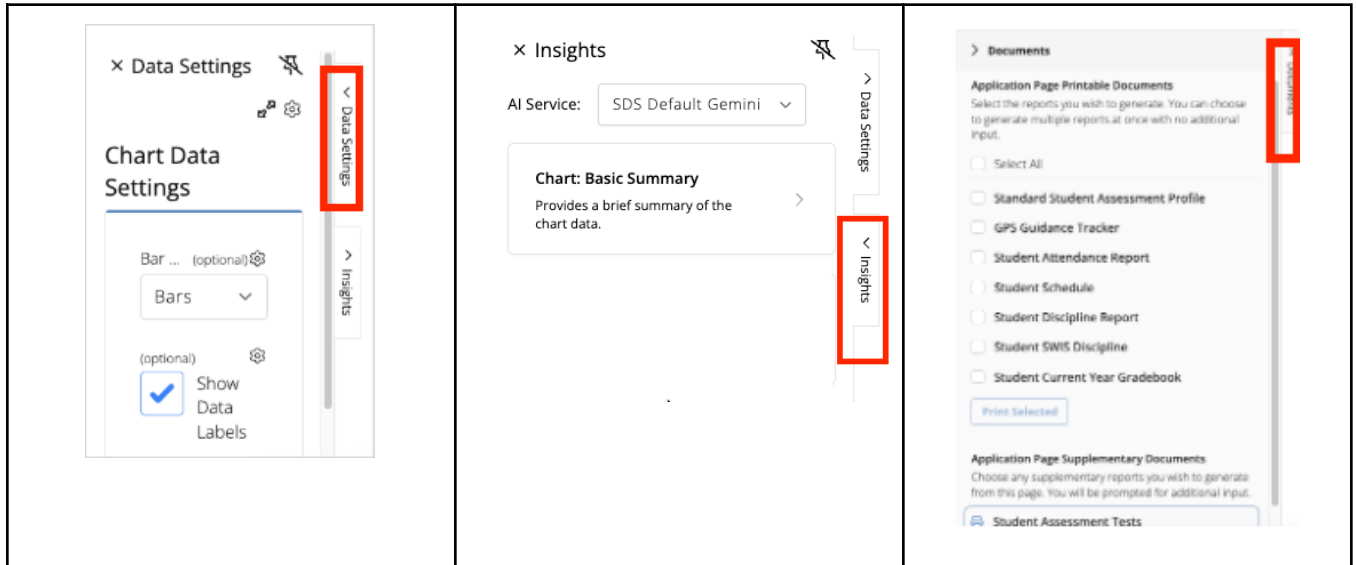

- o **Helpful Resource:**

- <https://support.schooldata.net/hc/en-us/articles/47409442013459>
- <https://support.schooldata.net/hc/en-us/articles/49427764844819>

12. Drawers

- **Data Settings:** Easily expandable drawers for most view types for quick filter access
- **AI Insights** <https://support.schooldata.net/hc/en-us/articles/48761912497427>
- **Documents:** On Student Dashboards, access a variety of individual student Printable Documents, with or without additional inputs. and
- **Helpful Resource:** <https://support.schooldata.net/hc/en-us/articles/360059473994>

13. Assessment Tests left navigation now provides a variety of options.

- **All Assessment Tests:** Easily allows users to locate scores available by school years and quickly click to access the scores and strands, or KPI views (limited availability). Click the **magnifying glass** next to the Assessment name to open and set Data Settings for the Enrollment or Data Year.

WA-AIM Science High School	WA-AIM Science HS		32			3	5	6	2	

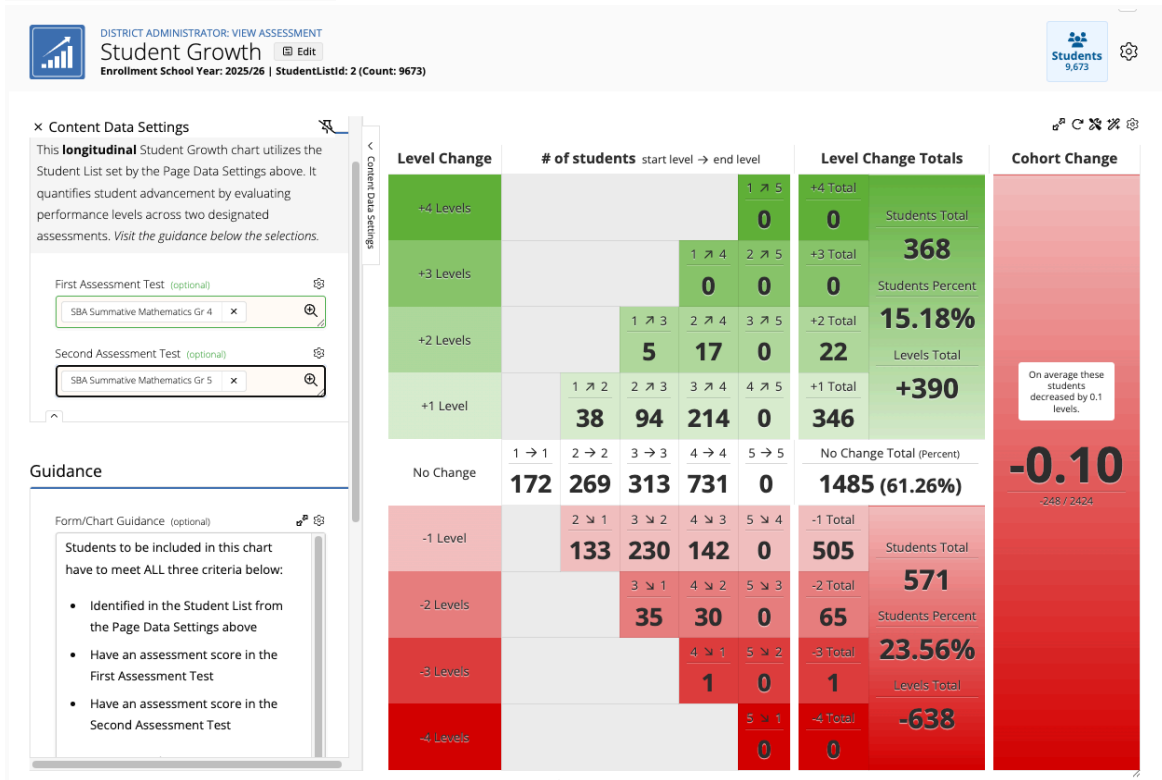

- **Assessment Sets:** See more details about the Assessment Set before clicking on it, access individual assessments, and view score counts. Click the magnifying glass to open the Assessment Set view and select Data Settings.

Essentials

Assessment Set Name	Subject Area	Number of Assessments	Number of Scored Assessme...	Shared District Wide
Star Math		5	5	Yes

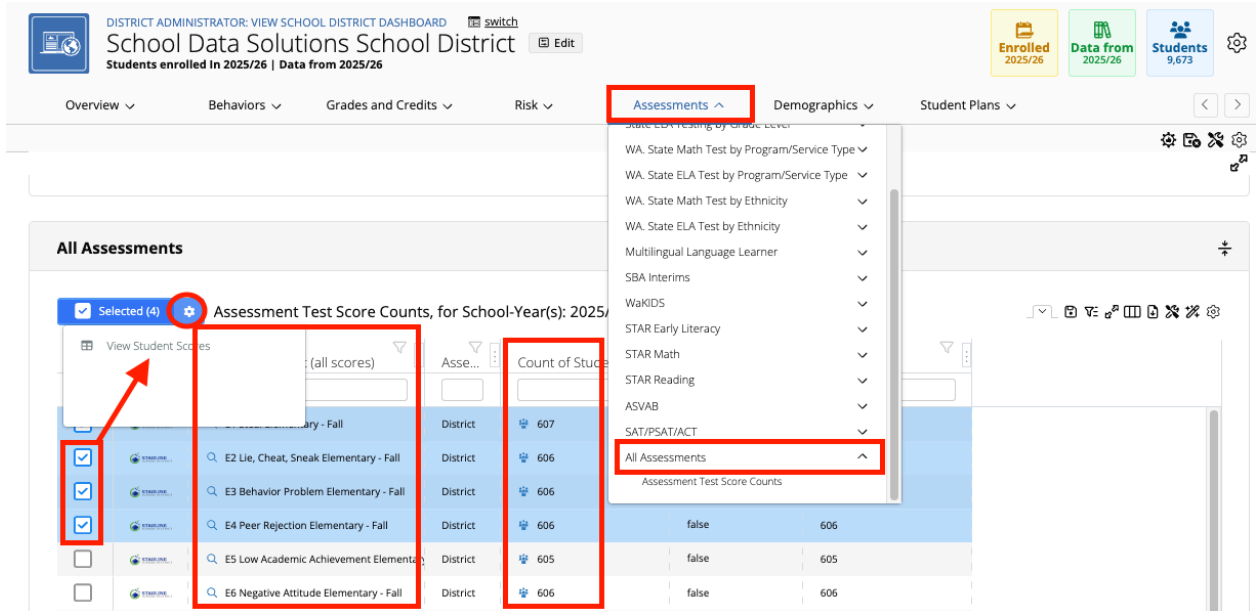

Assessment Test Label	Number of Scores	Number of 2024/25 ...
STAR Math Gr 5 Fall-PR BMark	732	732
STAR Math SGP Grd 5	847	847

- **Student Growth:** This longitudinal Student Growth chart utilizes the Student List set by the Page Data Settings. It quantifies student advancement by evaluating performance levels across two designated assessments.

14. The **All Assessments** container on District, School, Teacher, etc. Dashboards offer another way to access individual or multiple Assessments based on your student list.

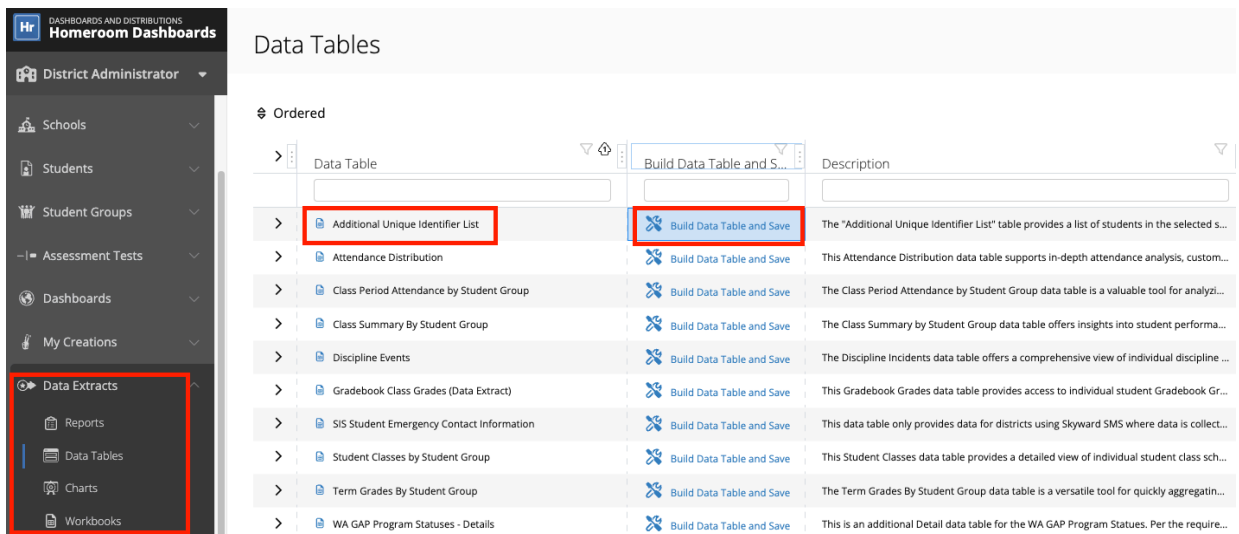

- The **magnifying glass** on the **Assessment Test** column provides detailed data for ALL students on that assessment.
- The **student icon** in the **Count of Student Scores** column provides student data based on the dashboard filters and the selected data years.
- Click the **checkbox** next to multiple assessments, then click the **Selected gear** in the top left and choose **View Student Scores** to view students' scores for the selected assessments based on the dashboard filters.

The screenshot shows the 'All Assessments' section of the School Data Solutions interface. A dropdown menu is open under the 'Assessments' tab, listing various tests like 'WA State Math Test by Program/Service Type', 'WA State ELA Test by Program/Service Type', 'WA State Math Test by Ethnicity', 'WA State ELA Test by Ethnicity', 'Multilingual Language Learner', 'SBA Interims', 'WaKIDS', 'STAR Early Literacy', 'STAR Math', 'STAR Reading', 'ASVAB', and 'SAT/PSAT/ACT'. The 'All Assessments' option is highlighted in red. In the table below, several rows are selected with checkboxes. A gear icon next to the 'Selected (4)' header is circled in red, and a red arrow points to the 'View Student Scores' option in the dropdown menu. The 'Count of Student Scores' column for the selected rows is also highlighted with a red box.

Assessment	Count of Student Scores
E2 Lie, Cheat, Sneak Elementary - Fall	606
E3 Behavior Problem Elementary - Fall	606
E4 Peer Rejection Elementary - Fall	606
E5 Low Academic Achievement Elementary - Fall	605
E6 Negative Attitude Elementary - Fall	606

15. **Data Extracts** (reports, data tables, charts, and workbooks) are now available within Homeroom to download, build & save, or deliver to users from the left navigation menu. Data Administrators can now manage which Data Extracts are available to each Role.

The screenshot shows the 'Homeroom Dashboards' interface. The left navigation menu has 'Data Extracts' highlighted in red. The main content area shows a list of data tables with a 'Build Data Table and Save' button highlighted in red for the 'Additional Unique Identifier List' table.
