
2026.04.29 SDS Release Notes

Date: April 29, 2026

Version: 2026.04.29

Homeroom

New Features

- **Student Plans Subpage (Tab)**
 - Created an HTML view of the **504 Plan Report**. Click the title in the **Plan Information > Label column** of the data table to access a read-only view of the report.
 - Created an HTML view of the **Intervention Plan Report**. Click the title in the **Plan Information > Label column** of the data table to access a read-only view of the report.
 - Created an HTML view of the **ALE Plan Report**. Click the title in the **Plan Information > Label column** of the data table to access a read-only view of the report.

Improvements

- Updated the **Student Groups Dashboard** to automatically align the **Enrollment Year** with the group's designated School Year. We've also introduced the ability to add or modify **Data Years** and integrated several standard **Page Data Setting** filters for better customization.
- Enhanced the **All Teachers search table** with new data columns for a more comprehensive overview of teacher workloads, including:
 - **# of Classes**
 - **# of Classes w/ Students**
 - **# of Students**
- Updated the **Activity** search data table to include a column for **# of Students**.
- Updated the **Page Data Settings** in the **Assessment Set Viewer** to allow selecting multiple schools.

CTE

New Features

- **Educator Role:** Under Programs of Study, added a Students sub-page (tab) and data tables to list student details for each Instructional Program.
- **Educator Role:** Added the ability to mass-upload earned **Industry Credentials** or add an Industry Credential for a student group.
- **Educator Role:** Added a CCMR data table
- **Created a Teacher Role**
- **Teacher Role:** Added My Students page and data table listing each student with a nested list of classes for each student

- **Teacher Role:** Added My Classes page and data table listing each class with a nested list of students for each class
- **Teacher Role:** Added a Student Profile link to the Student names on the My Classes page to view Student Details, CTE, and Documents
- **Teacher Role:** Added the ability to mass upload earned Industry Credentials or add an Industry Credential for a student group
- **Teacher Role:** Added a CCMR data table
- Added CTE data points to Student Data Grids
- CTE data added to Connect AI

Improvements

- **Educator Role:** Improved the navigation of the CTE Student subpages and updated the data tables on All Students and Student Credits pages

Pro-Dev

Improvements

- Added a column to the **Professional Development - Staff Not Registered for Course Sessions on a Selected Date** Data Extract/Data Table to identify if the user's account is active
- Shortened column header names on various Data Tables for various Roles to improve the user experience.

Student Data Grids

New Features

- Created three new Data Sets for CTE:
 - Earned Industry Credentials
 - Instructional Program Courses
 - Instructional Programs

Improvements

- Updated the **Interventions Plans** data set so that all columns are sortable.
- **Class Enrollment** Data Set updates:
 - Added new columns for **CTE-based data**.
 - Added columns for four specific Class Attributes as their own individual columns.
 - Introduced a new **Enrollment Characteristics** filter section to allow for more granular filtering.

Bug Fixes

- **EWM (Early Warning Module):** Fixed the link to the **Student Dashboard** from the **Attendance Summary** page.
- **Pro-Dev:** Fixed the incorrect Instructor/Facilitator Attendance Verification Status.
- **Pro-Dev:** Fixed the **Set Complete** button that was not working.

Other Improvements

- **Career Planner:** Updated **Resume Form** so all Recognition Types are pre-populated when one is added.
- **Connect AI:** Implemented **Copy to Clipboard** button with rich text formatting support for AI Chat.
- **Evaluations:** Updated **Electronic Signatures** to allow configuration to enable applying a signature to signable documents.
- **Evaluations:** created a **Supplemental Form** sub-page and logic for Evaluatee.
- **Intervention Plans:** Updated the look of the Contributing Factors Data Table for Data Admins.
