

ALE Program Manager/Registrar: Mass Editing Student Learning Plans V2

Every so often, a group of Student Learning Plans needs the same update. The **Registrar** or **Program Manager** has the option to update the following fields for a group of learning plans all at the same time:

- Certificated Teacher
- Supplemental Certificated Teacher
- SLP Start and End Date
- How Weekly Contact Requirements will be Fulfilled

1. Navigate to **Student Learning Plans** in the left navigation and choose **All Student Learning Plans**.
2. Use the **checkmarks** on the left to select the plans you would like to edit.
3. Using the **Selected Row Actions** menu at the top right, choose **Edit Student Learning Plans**.

The screenshot shows the ALE Program Manager interface. The left navigation menu is on the left, with 'Student Learning Plans' highlighted. The main content area displays a table of 'All Student Learning Plans' with 99 records. The table has columns for Student Full Name, School Year, Grade Level, Certificated Teacher, Is Approved, Approval Date, Is Concluded, and two columns for contact requirements. The row for 'Abdoulah' is selected, indicated by a blue checkmark in a circle. A 'Select Row Actions' dropdown menu is open, with 'Edit Student Learning Plan(s)' highlighted in a red box. A red arrow points from the 'Select Row Actions' button to the dropdown menu.

Student Full Name	School Year	Grade Level	Certificated Teacher	Is Approved	Approval Date	Is Concluded

, Amritha	2023/24	12th Grade	T. Jacobsen	✓	August 22, 2023	No	0	0

4. Update one or more available fields. If no selection is made for a particular field, that field on the selected plans will not be affected. Make any necessary updates and click **Save**.
 - Certificated Teacher
 - Supplemental Certificated Teacher(s)
 - SLP Start and End Date
 - How the weekly contact requirements will be fulfilled

Additional Notes:

- Any edits made in this form are not additive but will replace/overwrite the current data for all selected SLPs. For example, if you already have a default certificated teacher assigned to all plans and are attempting to add a second, you will want to choose both the existing default and the new one you are adding.

- Edits made via this feature will not require re-approval of learning plans. For example, updating the Certificated Teacher assigned to plans will not move them to “unapproved” status.
