

## Evaluation Performance Level Counts by Criterion

This chart is located in the **Charts Application**.

**Helpful Resource:** [Charts Guide](#)

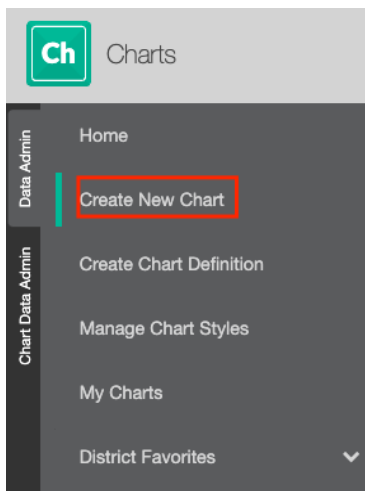

This chart displays the counts of each performance level for each criterion in the selected evaluation task template.

**Ideas for Use:**

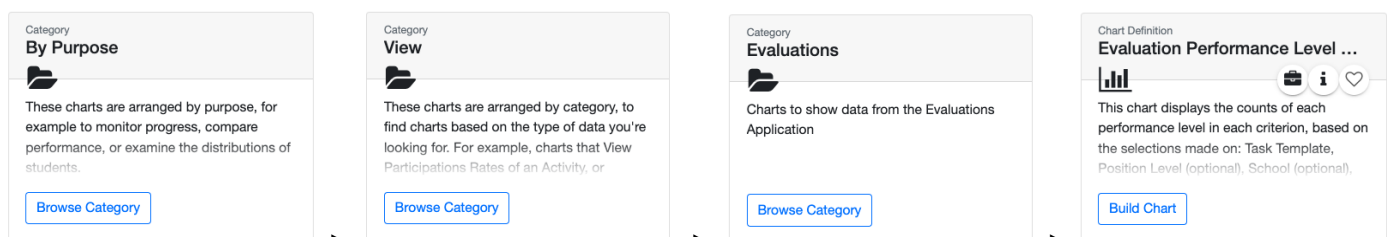

- **Calibration** amongst principals of the evidence they seek and how they score each sub-criterion.
- **Celebrate** the staff's strengths and/or identify positive growth from the target Professional Development.
- It potentially identifies areas where we could **focus on professional development**, either due to lower or inflated ratings in certain regions.

Log into SchoolData.net at [\[yourdistrict\].schooldata.net/v2/Chart-manager](#) with your SchoolData.net username and password.

Click **Create New Chart** on the left navigation panel to access the Chart.

Click the Browse Category button under **By Purpose > View > Evaluations > Evaluation Performance Level Counts by Criterion**.

Under the Evaluations Template, click **Build Chart** and choose an **Evaluation Template** (i.e., observation), **Evaluated Position Level** (i.e., Teacher Comprehensive), **School** (optional), and **School Year** (i.e., current). Click **Render Chart**.

Home / By Purpose / View / Evaluations
