

Limitations of Connect AI

Connect AI serves as an accessible data partner for district leaders, educators, and administrative teams. By bringing together your district's key information, it helps guide decision-making across screening, attendance, behavior, and academic performance. Review the sections below to learn which data sources Connect AI can access.

What Data Connect AI Can See

- Universal screening & Benchmark Results
- Grades, GPA, Course Performance
- Demographics, Subgroup & Language Status
- Attendance, Tardies & Patterns
- Behavior & Discipline Incidents
- Multi-year Standardized Test Data
- Intervention Plans and Details (Only if Entered)

What Data Connect AI Cannot See

- Google or Spreadsheet Data (unless uploaded by your Data Administrator)
- Social Skills Groups
- Counselor Session Notes (unless uploaded by your Data Administrator)
- Any Custom Reports Assembled for Your District
