

What Can Connect AI Do?

Connect AI supports educators with a number of everyday tasks similar to a personal data assistant or coach.

Role	What You Can Do With Connect AI?
Superintendents	<ul style="list-style-type: none"> Evaluate overall district performance and student outcomes across schools. Pull and analyze district-wide reports for board sessions and audits. Summarize complex district data into executive visual charts and graphs. Overlay data across multiple data sets such as grades, attendance, and behavior. Save custom queries to reuse for recurring executive and school board updates.
Curriculum Leaders	<ul style="list-style-type: none"> Measure the instructional ROI of curriculum programs funded by the district.

Role	What You Can Do With Connect AI?
	<ul style="list-style-type: none"> Track assessment growth across schools, grade levels, and subject areas. Create visual charts and graphs to defend effective programs with evidence. Receive smart AI suggestions to investigate further insights into student achievement. Pull and export detailed data lists into CSV files for targeted curriculum analysis.
School Psychologists & MTSS Coordinators	<ul style="list-style-type: none"> Identify Tier 1 students showing multiple risk indicators who need intensive intervention. Generate reports and visual progress bars for Multi-Tiered System of Supports (MTSS) discussions. Analyze peer comparison groups and cross-domain histories in seconds. Write narrative summaries to support individual student plans. Generate agendas for parent and student intervention meetings.
Principals & Building Administrators	<ul style="list-style-type: none"> Analyze chronic absenteeism trends and identify affected grade levels. Turn building data into immediate action plans without waiting on data teams. Summarize building-level data into clear insights and recommendations. Create and export downloadable charts and visual reports for staff meetings. Export student and grade-level list data to CSV files for administrative tracking.
Teachers	<ul style="list-style-type: none"> Identify students performing below benchmark in reading or math who require additional support. Create targeted student groups in Homeroom for differentiated instruction. Draft notification email text to parents regarding excessive absences or behavior incidents.

Role	What You Can Do With Connect AI?
	<ul style="list-style-type: none">• Generate individual student progress reports with visual tracking bars.• Easily access assessment performance by subject area without complex data filtering.
