Featured Highlights

Generating Next Year Plans

In order to quickly generate HiCap Plans for the upcoming school year for all students who currently have a plan, a new selected rows action has been added “Create Next Year Plan.”

The screenshot shows a table titled 'Highly Capable Student Learning Plans (13 records) Filtered'. The table has columns for Student, School, Responsible Educator, School Year, Grade Level, Eligibility Date, Eligibility Area, and an Actions column. A dropdown menu is open over the Actions column, showing options: 'Print Highly Capable Plan', 'Create Next Year Plan' (highlighted with a red box and a hand cursor), and 'Add Goal'. A red arrow points to the 'Student' column header.

This will open a form with the following fields that will generate plans with the associated data for every selected student:

The form is titled 'HiCap Educator Plans Create Next Year Plan' and includes a 'Save' button. It contains the following fields:

- Next Year Plans:** A section with a sub-header 'The selected values will be applied to the new plans created for each selected Student'.
- Responsible Educator (optional):** A text input field with a 'Select' button.
- Supplemental Educators (optional):** A text input field with a 'Select' button.
- Service Models (optional):** A text input field with a 'Select' button.
- Notes (optional):** A large text area for entering notes.

Several of the tabs will retain data from year to year, but always filter to the current year: Strengths, Goals, Tasks and Teacher Observations.

Capturing Referral Data

Additional data is now being captured when referrals are made to reflect the referrer's relationship to the student and the date of referral.

The screenshot shows the 'Manage Referred Student' interface for Christi * | 2021/22. The 'Referrals' tab is active, displaying a table titled 'HiCap - Educator Student Referrals (1 records)'. The table has the following columns: Referred By, Referral Notes, Date Entered, Relationship to Student, Recommendation R, and Constraining Factors. The 'Date Entered' and 'Relationship to Student' columns are highlighted with a red box. The data row shows 'McCollum*, Deidra' as the referrer, with a date of '2022-05-11T11:59:35.29' and a relationship of 'Educator'. The recommendation and constraining factors are both listed as 'Test'.

Referred By	Referral Notes	Date Entered	Relationship to Student	Recommendation R	Constraining Factors
McCollum*, Deidra		2022-05-11T11:59:35.29	Educator	Test	Test
